INFORMATION AS TO COLONIAL APPOINTMENTS.

THE COLONIAL SERVICE.

Arising out of the discussions of a special Committee appointed in 1930, to consider the question of the unification of the various Colonial Governments' Services, recognition was given to a single Colonial Service. Within this Service the following unified branches have been established, and it is proposed to proceed with the unification of other branches of the Service :—

Colonial Administrative Service.
Colonial Agricultural Service.
Colonial Audit Service.
Colonial Chemical Service.
Colonial Customs Service.
Colonial Education Service.
Colonial Forest Service.
Colonial Geological Survey Service.
Colonial Legal Service.
Colonial Medical Service.
Colonial Mines Service.
Colonial Police Service.
Colonial Postal Service.
Colonial Survey Service.
Colonial Veterinary Service.

Below will be found a summary of the principal classes of appointment in the Colonial Service which are dealt with respectively :—

(I) By the Director of Recruitment (Colonial Service).

(II) By the Crown Agents for the Colonies.

(I) APPOINTMENTS WITH WHICH THE DIRECTOR OF RECRUITMENT (COLONIAL SERVICE) DEALS.*

Applications for the following appointments should be addressed in writing to *the Director of Recruitment (Colonial Service)*, 8, *Buckingham Gate, S.W.*1., from whom memoranda giving full details of these appointments may be obtained on written request. Intending applicants and others who desire to obtain general information about the history and structure of the Colonial Service are recommended to read the book entitled "The Colonial Empire and its Civil Service," by C. J. Jeffries, published in 1938 by the Cambridge University Press (price 10/6d.).

VACANCIES.

Where information is given in the following paragraphs as to the number of vacancies available annually it is based, unless otherwise stated, upon the average requirements of the four or five years prior to 1931, during which, in the case of certain classes of appointment, a considerable amount of expansion of staff took place. In consequence of the financial depression the number of vacancies available between 1931 and 1934 was very considerably reduced. During the last four years the rate of recruitment has definitely increased in certain directions; but it is not possible to say whether, when conditions have become yet more stable, it will eventually approximate to that of the years immediately preceding 1931.

COLONIAL ADMINISTRATIVE SERVICE.

The Colonial Administrative Service was constituted as a "unified" Service with effect from the 1st of July, 1932.

The following paragraphs contain information regarding Administrative Appointments in East and West Africa (where most vacancies occur), Basutoland, the Bechuanaland Protectorate and Swaziland, Malaya, Hong Kong, Ceylon, Fiji and Western Pacific.

(*a*) QUALIFICATIONS.

A high standard of general education is essential for these appointments. Whilst a University Degree is not an absolutely indispensable qualification, the candidates selected for Administrative appointments in the last few years have nearly all been in possession of a University Degree, usually with Honours. The few exceptions have been in cases where a candidate has had some special qualifications (*e.g.* legal qualifications), or has acquired some special experience likely to prove of value (*e.g.* such experience as that of an officer of H.M.'s. Forces, especially one who has commanded native troops with success, and has been recommended for civil employment). There is no reason to anticipate that at future selections the standard in this respect will be any less high.

*The Secretary of State for the Colonies set up a Colonial Service Appointments Board in 1931 to make selections on his behalf for all the first appointments to the Colonial Service which are at his disposal. Selections so made are submitted to the Secretary of State for his final approval and ensuing appointments are made on his authority.

Digitized by Google

(*b*) Age Limits.

Candidates must have attained the age of 20½ and must not have attained the age of 30 on the 1st of August in the year of application. There is a definite preference for candidates who are under 26, and candidates selected for the Colonial Administrative Service who are over 25 are very unlikely to be allocated for duty in Ceylon, Malaya or Hong Kong.

(*c*) Application and Selection.

One annual selection takes place in the summer, usually in August. Completed applications must reach the Director of Recruitment between the 1st of January and the 30th of April in the year of the selection.

(*d*) Training.

Candidates provisionally selected for appointment to the Colonial Administrative Service are normally required to undergo a course of instruction in this country before embarkation on first appointment. The course commences in October and extends over the autumn, spring, and summer terms at either Oxford or Cambridge University, during which allowances are paid at the rate of £75 at the beginning of the first term, £50 at the beginning of the second and third terms, and £50 on completion of the course.

(*e*) East and West Africa.

The average number of Administrative Officers recruited for Tropical Africa from the end of the war until 1930 was 95 per annum.

During this period very considerable enlargements of staff contributed to maintain the average recruitment at this high rate despite the small number of 18 vacancies filled in 1922 as a result of the financial depression prevailing at that time, and a continuation of recruitment at so high a rate was not to be expected. In recent years, however, an average of between 50 and 60 cadets would have been required to replace annual wastage through retirement, etc., without allowing for any increase of staff. In 1930 the actual number of vacancies filled was 74, but in 1931 and 1932 it fell to 20 as a result of the financial depression. In 1933, the number of vacancies rose to 23, in 1934 to 33, and in 1935 to 58. 53 vacancies were filled in 1936, 59 in 1937, and 78 in 1938.

An Administrative Officer may be employed either in the Secretariat of a Colony or in a District. His duties may be very varied. If employed in a district his functions are of a magisterial and political nature, and he is the immediate agent of the Government in his District, and his responsibilities extend to all departments of the Administration which have no local representative. His duties may involve a considerable amount of travelling.

In West Africa, salaries start at £400 per annum and rise on a long scale to £1,000 per annum: in East Africa salaries start at £350 per annum and rise on a long scale to £1,000 per annum. There are higher posts above these scales.

(*f*) Basutoland, the Bechuanaland Protectorate and Swaziland.

It was decided early in 1937 that the recruitment for administrative posts in these territories should, in future, be merged into the annual selection for the Colonial Administrative Service, and that officers selected to fill Administrative vacancies in these territories should normally be appointed as members of that Service. 12 candidates were selected in 1937 and 2 in 1938.

The initial salary is £340 per annum.

(*g*) Ceylon.

Until 1935, administrative officers for Ceylon were recruited on the results of the open competitive examination held annually by the Civil Service Commissioners for appointments in the Home, Northern Ireland and Indian Civil Services and for Eastern Cadetships (including Cadetships in Malaya and Hong Kong prior to 1932), but the method of recruitment of European candidates is now merged into that already in force for appointments in the Colonial Administrative Service generally. The average number of European Cadets appointed during the years 1919 to 1931 inclusive was between two and three per annum. Three vacancies were filled in 1936, and two in 1937. No vacancies occurred in 1938.

At the present time Cadets receive a salary of £400 a year until they pass the prescribed examinations, and then £450 a year until they complete two years' service when they are eligible for promotion as Second Class Civil Servants with a salary of £500–£40–£700; £760–£40–£1,000; £1,050–£50–£1,300. The salaries of First Class Civil Servants are, for Grade II, £1,400–£50–£1,550 a year, and for Grade I, £1,600–£50–£1,750 a year; above that there are special appointments (not necessarily reserved for Cadets) with salaries ranging between £1,800 and £3,000 a year.

(*h*) Malaya and Hong Kong.

The average number of Cadets appointed to Malaya and Hong Kong during the period 1919–1931 inclusive was between 9 and 10 annually. Since 1931, the average has been between 5 and 6 annually. In 1937, 7 candidates were appointed, and nine in 1938.

Prior to 1932 these appointments were filled through the competitive examination for Eastern Cadetships, but the method of appointment is now merged into that already in force for appointments in the Colonial Administrative Service generally.

The Cadet Services provide the higher Administrative staff for all the various Government activities including the Secretariats, the Courts, the Treasuries, District and Land Offices, and in Malaya the Residencies in the Malay States.

In Malaya the Cadet starts at $350 per mensem (£490 per annum) and has the prospect of rising eventually to appointments in Class I, with salaries between $1,050 per mensem (£1,470 per annum) and $1,400 per mensem (£1,960 per annum).

Digitized by Google

In Hong Kong the initial salary is £400 per annum and the appointments in Class I are on a scale of from £1,450 to £1,600 per annum. It should be noted, however, that the scales of salary and the rates of certain allowances in Hong Kong are at present under revision.

In both Malaya and Hong Kong there are special appointments (not necessarily reserved for Cadets) above these scales.

(i) FIJI AND WESTERN PACIFIC.

Normally not more than two vacancies are likely to occur annually for Cadets in FIJI and the Western Pacific. Five vacancies occurred in 1933, but only one in 1934, and one in 1935. In 1936, owing to exceptional circumstances, seven vacancies occurred, and in 1937, eight. Three vacancies were filled in 1938.

The duties correspond to those of an Administrative Officer in Tropical Africa.

The initial salary is £350 per annum (local currency without exchange compensation) for Cadets serving in Fiji, and £375 per annum for Cadets serving in the Gilbert and Ellice Islands Colony and the British Solomon Islands Protectorate. In the British Solomon Islands Protectorate a local allowance of £50 a year is also paid.

(j) OTHER ADMINISTRATIVE APPOINTMENTS.

In many Dependencies, including those in the West Indies, vacancies for junior officers in the Administration and Secretariat are usually filled by the selection of local candidates or by promotion or transfer within the Service.

Vacancies may, however, occasionally occur in Cyprus and Palestine. One vacancy in Cyprus was filled in 1937 and two in 1938. One vacancy in Aden was filled in 1938. In Cyprus the initial salary is £360, rising on a long scale to £840 per annum. In Palestine the initial salary is £P.300, rising by annual increments of £P.25 to £P.800 per annum, with an expatriation allowance of £P.50 up to £P.525 and £P.100 after £P.525.

EDUCATIONAL APPOINTMENTS.*

A number of vacancies for junior Educational officers may be expected to occur in any year of normal prosperity.† The great majority of these occur in either East and West Africa, or Malaya and Hong Kong.

For all the ordinary junior Educational appointments which are dealt with by the Dir or of Recruitment candidates must have a Degree, usually a Degree with Honours, of a British University

In the case of vacancies which it is required to fill immediately or during the current year (*referred to, for convenience, as "immediate" vacancies*) candidates must, normally, have also a recognised Diploma in Education, or equivalent professional qualification. Failing such qualification candidates who have had sufficient proved experience of school teaching may sometimes be considered. They must have attained the age of 21½ and must not have attained the age of 35 on taking up their duties overseas if selected; there is a definite preference for candidates of under 30. It should be noted that, with few exceptions, "immediate" vacancies are filled during the summer. Candidates for "immediate" appointments are, therefore, advised to apply as early in the year as possible.

Vacancies may also be expected to occur each summer for which candidates having no professional qualification, and little or no teaching experience, are considered (*referred to, for convenience, as "course" vacancies*) on the understanding that, if selected, they will be required before proceeding overseas to undergo a special course of training in Educational method and practice at the University of London Institute of Education. Fees for this course are paid from public funds, and probationers attending it receive an allowance of £20 a month. Candidates for "course" vacancies, who will often be men expecting to graduate at a University in the current summer, must have attained the age of 20½ and must not have attained the age of 30 on the 1st of August in the year of application; there is a definite preference for candidates of under 26. One selection is held annually, usually in August, and completed forms of application must reach the Director of Recruitment between the 1st of January and the 30th of April in the year in which the selection takes place.

In Tropical Africa, while there is one common Educational policy which aims at providing a sufficient and wisely adapted system of education for the Native populations, there are naturally variations of organisation and method in the different Dependencies, and the duties of a junior Educational officer will vary accordingly. In general it may be said that his work demands both skill as a teacher and ability, born of enthusiasm, to participate in and supervise all forms of school activities, *e.g.* organised games, Boy Scout work, etc., which experience has shown to be of particular value in creating *esprit de corps* and a sense of service and leadership amongst African native boys. Sooner or later an officer may be called upon to undertake the duties of an Inspector of Schools, though the work of administration is generally confined to the higher appointments in the Education Department.

The scale of salary in East Africa is £350 (for 2 years on probation) rising by annual increments to £840 per annum. In West Africa the present scale is £400–£450 (for 3 years on probation) rising to £840 per annum.

In Malaya and Hong Kong a junior officer is usually appointed as a "European Master" for duty on the staff of a secondary school organised on lines somewhat similar to those of a Public School in this country. He will be required to teach either English subjects, or Mathematics or Science up to London Matriculation or equivalent standard. The "English" schools in Malaya are attended by Malay, Chinese and Indian boys. In Hong Kong there are both English and Chinese schools, and also some "Anglo-Chinese" schools, where the study of English and Chinese is carried on side by side. In all cases games, Boy Scout work or Cadet Corps, etc., play an important part. Above the time scale there are a number of senior administrative offices, promotion to which is by merit; and opportunities may occur for appointment to an Assistant Inspectorship, or other post connected with vernacular education, at an earlier stage in an officer's career.

† It should be noted, however, that in consequence of the general financial depression comparatively few Educational vacancies have been available since 1931, and it is considered unlikely that there will be any marked increase in the rate of recruitment for the present.

* It is proposed, during the year 1938, to constitute a unified "Colonial Education Service."

Digitized by Google

The scale of salary for European Masters in Malaya is $400 per mensem rising by annual increments to $800 per mensem (£560–£1,120 per annum). In Hong Kong European Masters receive £460 per annum rising to £950. In both cases appointments are in the first instance on three years' probation. It should be noted that the scales of salary and the rates of certain allowances in Hong Kong are at present under revision.

COLONIAL POLICE SERVICE (COMMISSIONED OR EQUIVALENT RANK).

The Colonial Police Service was instituted as a "unified" service with effect from the 1st of October, 1936.

These appointments comprise Police Probationerships in Ceylon, Malaya, Hong Kong and Palestine; Sub-Inspectorships of Constabulary in British Guiana and Jamaica, and appointments in the Police Forces of East and West Africa, Trinidad and Cyprus.

17 appointments were filled during the years 1932–34 inclusive. 14 appointments were made in 1935, 9 in 1936, 19 in 1937, and 21 in 1938.

The selection takes place in the summer and completed applications must be submitted between the 1st of January and the 15th of March.

Candidates for all appointments must be over twenty years of age on the 1st of January in the year in which selection takes place.

For appointments in Malaya, Hong Kong, and Palestine, candidates must be under 22 years of age on the 1st of January in the year in which selection takes place: for all other Colonies, etc., they must be under 26 years of age (22 in the case of Ceylon) on the 1st of August in the year in which selection takes place.

In the case of Police appointments in Tropical Africa, the Secretary of State would, in certain circumstances, be prepared to consider an application from a candidate up to 30 years of age who had had such experience as that of a commissioned officer of His Majesty's Regular Forces, especially one who had commanded native troops with success, and had been recommended for civil employment.

Candidates must be in possession of the School Certificate, or of equivalent or higher educational qualifications. In the case of Ceylon, an Honours Degree of a British University is essential.

Police Cadets selected for Malaya are normally required to take a three months' course in the Malay language at the School of Oriental and African Studies in London, during which they receive an allowance of £20 a month.

Candidates selected for Police appointments in Tropical Africa, Ceylon, Hong Kong, Trinidad and Cyprus will normally be required to undergo a year's course of training at the Metropolitan Police College during which they receive an allowance of £175 a year.

Commencing salaries are as follows:—Tropical Africa, between £350 and £400; Hong Kong, £400 (under revision); Ceylon, £380; Malaya, £420; Palestine £300, with pensionable expatriation allowance of £50; Trinidad, £400; British Guiana, £200; Jamaica, £200 (under revision); with other allowances which vary. Salaries in the Far Eastern Services are on a long scale. To take the Malayan Police as an instance. A Cadet who is appointed at £420 receives £490 on becoming a Passed Cadet. On confirmation in his appointment he receives £560 rising by annual increments of £35 to £1,120 a year. Above this scale there are a number of appointments on the scale £1,120 to £1,330. The Inspector-General, Straits Settlements Police, and the Inspector-General, Federated Malay States Police, receive £1,680 each.

The duties of a Police Officer in a Tropical Dependency are extremely varied and should appeal particularly to the young man with a taste for an out of door life who would appreciate doing far more responsible work than would normally fall to a man of similar age in this country.

COLONIAL CUSTOMS SERVICE.

The Colonial Customs Service was constituted as a "unified" service with effect from the 1st of January, 1938.

One selection of candidates to fill vacancies is held annually, usually during July and August, and completed applications must reach the Director of Recruitment between the 1st of January and the 15th of March. An average of six vacancies in Malaya has been filled annually since 1933. One vacancy in Tropical Africa was filled in 1938.

Candidates for appointments in Malaya must be over 20 and under 22 years of age on the 1st of January in the year in which selection takes place. Candidates for appointments in Tropical Africa and elsewhere must be over 21½ and under 26 years of age on the 1st of August in the year in which selection takes place.

The minimum educational qualification entitling a candidate to be considered will be the possession of a School Certificate at the date of application or the production of evidence that he has passed some other examination of equivalent or higher standard. It should be noted, however, that a number of candidates selected in recent years have been University graduates, usually with Honours.

Commencing salaries are £350 in East Africa, £400 in West Africa, and Malaya, £420 per annum.

COLONIAL AUDIT SERVICE.

Normally, four or five vacancies may be expected annually and they are filled as they occur.

Candidates must be over 21½ years of age and under 26.

The essential qualifications for these appointments are: a good general education, preferably at a University; a natural inclination for figures and accounts; character and ability such as would qualify a candidate in due course for the higher branches of the Service.

Digitized by Google

Selected candidates undergo a short period of training in the Home Establishment of the Colonial Audit Department, during which an allowance at the rate of £20 a month is paid.

Usual commencing salaries are £350 per annum in East Africa and £400 in West Africa, rising to £780 and £810 respectively, with higher posts above these scales.

OTHER APPOINTMENTS OF A FINANCIAL NATURE.

General questions of financial policy and control in the Colonies are dealt with in the central Secretariats, in many of which there is now a separate financial branch staffed by Administrative Officers selected for such work from the general administrative cadre. It is thus possible that when filling vacancies in the Colonial Administrative Service at the annual selection in August, the Secretary of State may occasionally be asked to select a candidate possessing special qualifications and aptitude for dealing with financial and economic questions.

On the other hand, the task of accounting for Government revenue and expenditure is entrusted to a separate department known as the Treasury or the Accountant-General's Department. Officers appointed to Treasury or Accountancy posts are not members of the Colonial Administrative Service, and vacancies in such posts are normally filled by the Crown Agents for the Colonies, 4, Millbank, London, S.W.1, to whom applications should be addressed.

COLONIAL LEGAL SERVICE.

The Colonial Legal Service was constituted as a "unified" service with effect from the 1st July, 1933.

Before 1931, the average number of vacancies filled annually was between 11 and 12, but, on account of the financial depression, considerably fewer appointments were made between 1931 and 1934. 72 vacancies were filled during the period 1935–37 inclusive, and 26 appointments were made in 1938. Vacancies are filled as and when they occur.

The majority of appointments which are filled from outside the Service are for Crown Counsel and Magistrates, for which barristers only are eligible. Occasionally, however, a vacancy occurs for which a solicitor can be considered.

Candidates should be under 40 years of age and should normally have had at least four years' practical experience in their profession.

Initial salaries are seldom less than £600 p.a. and in many cases are substantially higher.

COLONIAL MEDICAL SERVICE.

The Colonial Medical Service was constituted as a "unified" service with effect from the 1st of January, 1934. Officers are appointed to the Service by the Secretary of State and are liable to be posted at his discretion. The wishes of individual officers are, however, consulted as far as possible, both as regards posting on first appointment and as regards subsequent transfer.

The average annual number of appointments for Medical Officers made during the period 1926–1930 was 97. In 1931, as a result of the general financial depression, the actual number of appointments made was 35 and this figure fell to 12 and 22 in the years 1932 and 1933 respectively. 31 appointments were made in 1934; 48 in 1935; 53 in 1936; 47 in 1937; and 54 in 1938. It is not possible to forecast actual requirements in the immediate future.

Vacancies may occur at any time of the year and are dealt with as circumstances require. Candidates should be under 35 years of age, must be fully qualified and must be on the Medical Register. Preference is given to candidates who have held hospital or public health appointments or who have special knowledge of anæsthetics, radiology, surgery, medicine, ophthalmology, gynæcology and midwifery, diseases of the ear, nose and throat, venereal diseases, etc. In the case of Lady Medical Officers, for whom there are occasional vacancies, experience in child welfare work is almost invariably essential.

Selected candidates are normally required to undergo a course of instruction in Tropical Medicine and Hygiene before proceeding overseas.

The majority of vacancies for Medical Officers occur in West Africa, East Africa and Malaya. The vacancies for Lady Medical Officers are usually confined to West Africa and Malaya.

Commencing salaries in West Africa, East Africa and Malaya are normally £660, £600, and £700 per annum respectively, but it should be noted that the salary scales in East and West Africa are at present under revision.

Vacancies occasionally occur for Medical Entomologists.

Dental Surgeons.

It is very rarely that a vacancy for a Dental Surgeon occurs. The conditions of these posts vary too much for general information to be given.

COLONIAL AGRICULTURAL SERVICE.

The Colonial Agricultural Service was constituted as a "unified" service with effect from the 1st of October, 1935. It includes appointments for officers for general investigational, advisory and similar duties, as well as for agricultural specialists, such as botanists, mycologists, entomologists and agricultural chemists. In future, almost all vacancies for agricultural officers and agricultural specialists are likely to be filled by the selection of Colonial Agricultural Scholars on completion of their training (see below). For any further vacancies candidates with University degrees in agriculture or natural science who have continued post-graduate study or research for periods similar to those of Colonial Agricultural Scholars would be most likely to be selected. A few vacancies may also be available, in addition to the above, in connection with the inspection of crops and of produce for export. For these appointments candidates are usually required to be in possession

Digitized by Google

of a degree or diploma in agriculture or horticulture. The Secretary of State is also occasionally asked to fill vacancies of a definitely horticultural nature in connection with the care of botanic gardens or fruit cultivation. For these a horticultural qualification such as that obtainable at the Royal Botanic Gardens, Kew, or the horticultural diploma of an Agricultural College, is required.

The majority of appointments are filled in July and August, but vacancies may be filled at other times. Candidates should usually be over 21½ and under 30 years of age. Commencing salaries usually vary from £400 to £500.

The Secretary of State offers annually in the summer a certain number of Colonial Agricultural Scholarships. These are post-graduate scholarships, tenable in most cases for two years, one of which is spent in this country and the other at the Imperial College of Tropical Agriculture in Trinidad or some other institution abroad. The scholarships are intended to provide a pool of men trained in agriculture and agricultural science from which vacancies in the Colonial Agricultural Service can be filled. Candidates should possess, or be about to qualify for, a degree in agriculture or natural science. The value of a scholarship is:—

(i) Whilst a scholar is in this country; £200 per annum with payment of fees for tuition and, if necessary, of matriculation and examination fees;

(ii) Whilst a scholar is abroad: £225 per annum with payment of passages and of cost of travelling, if required, among the West Indian Islands or elsewhere; and also of tuition fees up to a maximum of £75;

(iii) Each scholar will also receive an allowance not exceeding £5 for the purchase of approved books.

COLONIAL VETERINARY SERVICE.

The Colonial Veterinary Service was constituted as a "unified" service with effect from the 1st of October, 1935.

Several vacancies for veterinary officers or veterinary research officers may normally be expected to occur annually in the Colonial Veterinary Service. The majority of these vacancies are normally filled by the selection of Colonial Veterinary Scholars on completion of their training (see below), though urgent vacancies may be filled, as and when they occur, by the appointment of candidates possessing the Diploma of Membership of the Royal College of Veterinary Surgeons or a veterinary qualification obtained in one of the self-governing Dominions. Candidates should be over 21½ and under 30 years of age on assuming their duties overseas. Commencing salaries in the larger Veterinary Departments vary between £560 and £630 per annum.

The Secretary of State offers annually, in the summer, a limited number of Colonial Veterinary Scholarships and Studentships. These are of a post-graduate nature and are intended to provide a pool of qualified candidates from which vacancies in the Colonial Veterinary Service can be filled. It is intended to make not less than four awards annually until further notice. Candidates for Scholarships should possess, or be about to qualify for, a science degree of a British University or some equivalent qualification. A Scholarship will ordinarily be tenable for four years, to enable the holder to qualify for the Diploma of M.R.C.V.S., and will be of the value of £200 a year, with provision for training fees and an allowance for the purchase of approved books in addition. Candidates for Studentships should possess or be about to qualify for the Diploma of Membership of the Royal Veterinary College or a veterinary qualification obtained in one of the self-governing Dominions. A Studentship will usually be tenable for one year and will be of the value of £300 a year, including provision for training fees; but an allowance not exceeding £5 for the purchase of approved books is payable in addition.

COLONIAL FORESTRY SERVICE.

The Colonial Forest Service was constituted as a "unified" service with effect from the 1st of January, 1935.

A limited number of vacancies for Assistant Conservators of Forests may be expected to occur each year. The average number of vacancies during the past four years has been nine.

For the present, such vacancies will be filled by the selection of graduates in Forestry who will undergo a course of one year's duration at the Imperial Forestry Institute after a period of practical experience in the Colonial Forest Department for which they have been selected. Candidates should usually be over 21½ and under 30 years of age. The commencing salaries of Assistant Conservators of Forests vary between £400 and £500 a year.

It is hoped to bring into operation in 1940 a scheme designed to widen the field of recruitment by offering scholarships in Forestry (on the analogy of the Colonial Agricultural and Veterinary Scholarships) for which candidates who have already taken honours in less specialized subjects will be eligible.

ZOOLOGICAL APPOINTMENTS.

Vacancies occasionally arise in connection with mosquito, tsetse-fly, and similar investigations, which are open to graduates in zoology or natural science who have specialised in medical Entomology. Vacancies for entomologists occur, however, rather more frequently in the Colonial Agricultural Service (see above). There are also occasional openings for trained Zoologists in Colonial Fisheries, Game Preservation and Museum Departments.

THE COLONIAL CHEMICAL SERVICE.

The Colonial Chemical Service was constituted as a "unified" service with effect from the 1st of January, 1939. Some three or four vacancies are usually available in each year for officers for general analytical work (*i.e.*, as Government Chemists or Analysts). A candidate should usually be over 21½ and under 35 years of age, be an associate of the Institute of Chemistry, and should possess a good University Degree in Chemistry. The certificate of the Institute of Chemistry in Branch E. (Foods, Drugs, etc.) is a valuable additional qualification and is sometimes essential. The duties usually include any analytical work required by Government, which falls outside the scope of the Agricultural Chemist (*e.g.*, the examination of stores, foods, drugs, water, ores, etc., and bacteriological and medico-legal work). There are also occasional vacancies for specialists in bio-chemistry for Medical and other Departments. Initial salaries vary between £400 and £600.

Digitized by Google

COLONIAL GEOLOGICAL SURVEY SERVICE.

The Colonial Geological Survey Service was constituted as a "unified" service with effect from the 1st of January, 1938.

Vacancies for Geologists are not of very frequent occurrence, and are filled as and when they occur.

Candidates should be between the ages of 21½ and 35. They should possess a University Degree, preferably with Honours, ensuring a good general knowledge of geology, and also have carried out independent field investigations.

Commencing salaries vary from £400 to £600.

COLONIAL MINES SERVICE.

The Colonial Mines Service was constituted as a "unified" service with effect from the 1st of January, 1938. A few vacancies are usually available each year, and are filled as and when they occur.

The age limits are 21½ to 35.

Candidates should hold a Degree or Diploma in metalliferous mining of a British University or School of Mines. Practical experience of metalliferous mining is usually required.

Commencing salaries vary from £475 to £560.

COLONIAL SURVEY SERVICE.

The Colonial Survey Service was constituted as a "unified" service with effect from the 1st of January, 1938.

The annual number of vacancies for Survey Probationers before 1931 varied considerably, but about 12 were expected annually. In 1931 only three were filled, and during the succeeding four years recruitment was suspended. Four vacancies were filled in 1936, five in 1937, and seven in 1938.

Selections are usually made during June.

Candidates should be not less than 21 and under 28 on the 1st of July in the year in which the selection takes place. They should either be in possession of an Honours Degree in mathematics, physical sciences, or engineering, or certain other equivalent qualifications.

Completed application forms must be submitted before the 30th of April.

Selected candidates usually undergo a 6 to 8 months' course of training under the Ordnance Survey Office, Southampton, followed in some cases by a year's training at Cambridge. During these courses allowances are paid at the rate of £50 a quarter at Southampton and £75 a term at Cambridge. Commencing salaries vary from £400 to £490.

METEOROLOGICAL APPOINTMENTS.

A limited number of vacancies may be expected to arise in Colonial Meteorological Services and Observatories each year. Candidates should usually be between the ages of 21½ and 35 and hold a good Honours degree in Mathematics or Physics. Before taking up their duties selected candidates may be required to undergo a course of training in meteorological work of from three to six months' duration in this country during which an allowance is paid to them.

ARCHÆOLOGICAL AND ETHNOGRAPHICAL APPOINTMENTS.

Vacancies of this nature are rare, but the Secretary of State may occasionally be asked to select a trained Archæologist or Anthropologist for a Museum appointment.

ECCLESIASTICAL APPOINTMENTS.

The Secretary of State is rarely called upon to fill an Ecclesiastical appointment. If a post falls vacant a candidate is selected in some special manner with particular reference to the requirements and circumstances of the Office.

No list of candidates is kept at the Colonial Office.

HARBOURMASTER APPOINTMENTS.

Vacancies occur very infrequently for Port Officers or Harbourmasters.

Candidates for such appointments must either—(1) have held a commission in the Royal Navy, or (2) have held a Master's or extra Master's certificate, and be an officer of the Royal Naval Reserve.

The conditions of these posts vary too much for general information to be given. The better paid posts are, however, usually filled by promotion from within the Colonial Service.

IMMIGRATION APPOINTMENTS.

On very rare occasions vacancies have occurred in the Immigration Department of a Colony which provides facilities for the immigration of natives of India.

For such a vacancy a competent knowledge of one or more Indian languages would be essential.

AVIATION APPOINTMENTS.

The openings in connection with aviation in the Colonial Service are at present limited. When a vacancy occurs the Air Ministry is asked to advise as to the selection of a suitable candidate.

PERSONAL STAFF APPOINTMENTS.

Appointments, such as those of Private Secretary and Aide-de-Camp, on the personal staff of the Governor of a Colony are made by the Governor concerned. It occasionally happens, however, that a Governor asks the Secretary of State to recommend a suitable officer to act in such a capacity. A candidate who wishes

Digitized by Google

his name to be noted for consideration, in the event of such a request being made, should apply in writing to the Director of Recruitment (Colonial Service). As a rule only unmarried candidates are selected for such appointments. Previous experience in a similar position is valuable, but not as a rule essential. For appointment as Aide-de-Camp an officer, or ex-officer, of H.M. Forces is usually selected.

OTHER APPOINTMENTS.

Vacancies in Departments, other than those already mentioned, may occasionally occur. Owing to their diversity, however, it is not possible to give any general account of the qualifications which might be required.

(II) APPOINTMENTS IN THE COLONIAL SERVICE WHICH ARE FILLED BY THE CROWN AGENTS FOR THE COLONIES.

The appointments mentioned in the paragraphs which follow are filled, as and when vacancies occur, by the *Crown Agents for the Colonies*, 4, *Millbank, S.W.*1., from whom further details may be obtained on request.

CIVIL, MECHANICAL AND ELECTRICAL ENGINEERING.

The majority of vacancies occur in West Africa, East Africa and Malaya.

The commencing salaries vary from approximately £480 to £600 per annum.

The age limits vary between 23 and 35 years of age.

The qualifications required are as follows:—

Civil Engineers.

Assistant Engineers on Government Railways must be Corporate Members of the Institution of Civil Engineers or hold an Engineering degree or diploma recognised as granting exemption from Sections A and B of the A.M.I.C.E. examination, and possess experience on Railway Survey, Construction or Maintenance.

Assistant Engineers in Public Works Departments must be Corporate Members of the Institution of Civil Engineers or hold an Engineering degree or diploma recognised as granting exemption from Sections A and B of the A.M.I.C.E. examination, and possess experience on Public Works. It is preferred that all candidates should have had at least 2 years practical experience of good Engineering work after taking their degree or completing their Articles, but consideration will be given to the applications of candidates with less than two years practical experience provided they are in possession of one of the qualifications above mentioned.

Mechanical Engineers.

Assistant Locomotive Superintendents and Assistant Works Managers (Railways).—Engineering degree or A.M.I.M.E. and apprenticeship in locomotive works, including running shed and footplate work, and subsequent experience in a railway running department, or in railway works management.

Assistant Mechanical Engineers (Public Works Department).—Engineering degree or A.M.I.M.E. and apprenticeship with subsequent experience of steam, oil and gas engines, motor cars, etc.

Electrical Engineers.

Electrical engineering degree or A.M.I.E.E. and apprenticeship, with subsequent power station and mains experience.

Shift Engineers.—Apprenticeship to mechanical engineering and subsequent experience in power station running. In addition marine and electrical experience is desirable.

Telegraph Engineers.

Thorough training in telegraph and telephone engineering and experience in a Home or Colonial Post Office Engineering Department or a British Railway. In addition, an electrical engineering degree or A.M.I.E.E. is usually required. A knowledge of wireless engineering is desirable.

Draughtsmen.

Candidates should be between 23 and 35 years of age.

Engineering.—Experience in Civil Engineer's Office, Plotting Surveys, Levels, etc. Quantities Estimating and Design of buildings, bridges, etc.

Locomotive.—Apprenticeship in Locomotive works and subsequent experience in a Locomotive drawing office.

The commencing salaries vary from approximately £400 to £480 per annum.

Artisans.

Vacancies for artisans, etc., in the following trades occur from time to time:

- Foremen of Works (Buildings)
- Saw Mill Foremen
- Plumbers
- Loco Foremen
- „ Fitters
- „ Erectors
- „ Turners
- „ Boilermakers
- Carriage & Wagon Examiners
- Carriage & Wagon Builders
- Moulders
- Millwrights
- Platelayers
- Electricians
- Cable Jointers
- Telegraph Foremen
- „ Mechanicians
- General Fitters
- Well Drillers

Digitized by Google

Candidates are required to possess previous experience and to be between 25 and 35 years of age. The commencing salaries vary from £370 to £400 a year, except in the case of Well Drillers, who are usually engaged at fixed salaries varying from £480 to £600 per annum.

Architectural.

Architects and Architectural Draughtsmen.

Candidates should be between 23 and 35 years of age.

The qualification of A.R.I.B.A. is generally required, with experience in design, supervision of building operations, specifications, and the general work of an architect's office. A knowledge of quantity surveying is desirable.

The commencing salaries vary from approximately £450 to £700 per annum.

MARINE.

The majority of vacancies occur in Nigeria, Tanganyika and Kenya (Lake Steamer Service).

Sub-lieutenants of the R.N.R. who are not qualified for promotion to the rank of Lieutenant are not required to resign their commissions as a condition of appointment to the Nigerian and Lake Steamer Services, but they must definitely understand that they are liable to removal from the active list for failure to qualify for promotion to rank of Lieutenant and that, if so removed, they cannot be placed on the retired list.

The qualifications for appointment to the Nigerian Marine Department are as follows:—

Executive Officers.—Officers on the Active List of the Royal Naval Reserve are given preference, though this qualification may be waived in the case of otherwise suitable candidates possessing an Extra Master's or Master's Certificate. Age should be between 25 and 30 years. Preference will be given to ex-cadets from the "Conway," "Worcester" or The Nautical College, Pangbourne.

Engineer Officers.—Officers on the Active List of the Royal Naval Reserve or Special Reserve of or above the rank of Lieutenant, and Mercantile Marine Engineers, possessing First Class Extra or First Class Engineers' Certificates will be given preference. Age should be between 24 and 30 years.

The commencing salary in the case of officers possessing Master's or First Class Engineer's certificate of Competency is £450 per annum rising to £720 per annum. There are higher posts above this scale.

For vacancies in the Tanganyika Territory the following qualifications are required:—

Marine Officers.—Master's Certificate and preferably a commission in the Royal Naval Reserve. Age 22-35. Salary £426 to £660 a year.

Second Engineers.—At least a Second Class Engineer's Certificate. Age, not under 22 years. Salary £372, rising to £480 a year.

For vacancies in the Lake Steamer Service of the Kenya and Uganda Railway and Harbours Department the following qualifications are required:—

Second Officers.—Master's Certificate. *Engineers.*—Chief Engineer's Certificate. Age 25-30. Salary £390 rising to £600 per annum.

ARTISANS.

Vacancies for Artisans in the following trades occur from time to time in Nigeria:—

Shipwrights	Platers.
Boilermakers	Turners.
Fitters.	Coppersmiths.

Candidates are required to possess previous experience and be between 25 and 35 years of age. Salary £400 to £500 a year.

ACCOUNTING AND STOREKEEPING.

Accountants and Storekeepers.—The majority of vacancies occur in West Africa and East Africa. The commencing salaries vary from £300 to £480 per annum.

Candidates should be between 23–35 years of age.

The following is required of candidates:—

Accountants (Assistant).

In Accountant-General Departments usually in West Africa.—Good general education, accounting experience and preferably a recognised accountancy qualification.

On Government Railways in East and West Africa.—Experience of accounting in the Chief Accountant's Office of a British Railway, and some knowledge of mechanical accounting desirable.

In Public Works Departments in East and West Africa.—Experience in keeping cost accounts with a firm of Public Works Contractors.

In Marine Departments in West Africa.—A thorough knowledge of commercial accounts, and of time-keeping and costing for constructional and repair engineering work, ability to supervise the accounting for large quantities of marine and engineering stores and a knowledge of office management generally.

Digitized by Google

STOREKEEPERS (ASSISTANT).

On Government Railways in East and West Africa.—Experience of Storekeeping and preferably of Store Accounting on a British Railway.

In Public Works Departments in East and West Africa.—Experience of Storekeeping, including Store Accounting, on Public Works of importance or with a large firm of Building Contractors.

LABORATORY ASSISTANTS, STOCK INSPECTORS, AND FORESTERS.

Vacancies occur from time to time in East and West Africa for Laboratory Assistants, Stock Inspectors and Foresters. Candidates should be between 23 and 35 years of age.

Candidates for appointment as Laboratory Assistants should possess a sound practical knowledge of technical work as applied to Pathology and Bacteriology.

Candidates for appointment as Stock Inspectors should have a good practical knowledge of stock, more particularly cattle, and possess a diploma in dairying or agriculture.

Candidates for appointment as Foresters should have the diploma of the Forest of Dean or Benmore Schools, or have had similar training on large private estates. A practical knowledge of surveying (with prismatic compass and plane table) is desirable.

The commencing salaries vary from £300 to £400 per annum.

SANITARY INSPECTORS.

Candidates should be under 35 years of age and must possess the Sanitary Inspector's Certificate of the Royal Sanitary Institute or other recognised examining body, or the first class Sanitary Assistant's certificate of the Army School of Hygiene. Experience as Sanitary Inspector is desirable and preference given to candidates possessing also the certificate for Inspector of Meat and other Foods.

The majority of vacancies occur in West Africa and East Africa.

Commencing salary in West Africa is £400 per annum, and in East Africa £372.

POLICE (EUROPEAN NON-COMMISSIONED OFFICERS AND CONSTABLES).

Vacancies occur from time to time in the Police Forces of Palestine, Hong Kong, Tanganyika and Ceylon.

Palestine.—Constables, age 20–25, height 5′ 9″, single. Candidates must have served in one of the following branches of the British Army :—Horsed Cavalry, Royal Artillery, Foot Guards or Infantry. Section "A" reservists are not eligible. Salary £132 per annum. Free rations, quarters and uniform.

Hong Kong.—Constables, age 21-25, height 5′ 8″, single. Previous Police experience unnecessary. Commencing salary £190 per annum. Bounty of £25 on first appointment. Free quarters and uniform.

Tanganyika Territory.—Assistant Inspectors, age 22-30, height 5′ 9″, single. Previous Police experience desirable. Commencing salary £300 per annum. Uniform allowance of £10 on first appointment and thereafter annually at the end of each year's service. Free quarters.

Ceylon.—Sub-Inspectors, age 21-29 (in the case of ex-Navy men the maximum age limit is 32 years), height 5′ 9″, single. Previous Police experience unnecessary. Commencing salary £200 per annum. Free quarters and uniform.

Chest measurement must be in proportion to height, with good expansion.

Candidates for all the above police appointments must be of good education.

Digitized by Google

elected candidates undergo a short period of training in the Home Establishment of the Colonial Audit partment, during which an allowance at the rate of £20 a month is paid.

Jsual commencing salaries are £350 per annum in East Africa and £400 in West Africa, rising to £780 and 0 respectively, with higher posts above these scales.

OTHER APPOINTMENTS OF A FINANCIAL NATURE.

leneral questions of financial policy and control in the Colonies are dealt with in the central Secretariats, nany of which there is now a separate financial branch staffed by Administrative Officers selected for such 'k from the general administrative cadre. It is thus possible that when filling vacancies in the Colonial ministrative Service at the annual selection in August, the Secretary of State may occasionally be asked select a candidate possessing special qualifications and aptitude for dealing with financial and economic stions.

In the other hand, the task of accounting for Government revenue and expenditure is entrusted to a arate department known as the Treasury or the Accountant-General's Department. Officers appointed Treasury or Accountancy posts are not members of the Colonial Administrative Service, and vacancies uch posts are normally filled by the Crown Agents for the Colonies, 4, Millbank, London, S.W.1, to whom lications should be addressed.

COLONIAL LEGAL SERVICE.

The Colonial Legal Service was constituted as a "unified" service with effect from the 1st July, 1933.

Before 1931, the average number of vacancies filled annually was between 11 and 12, but, on account of financial depression, considerably fewer appointments were made between 1931 and 1934. 72 vacancies e filled during the period 1935–37 inclusive, and 26 appointments were made in 1938. Vacancies are d as and when they occur.

The majority of appointments which are filled from outside the Service are for Crown Counsel and Magistrates, which barristers only are eligible. Occasionally, however, a vacancy occurs for which a solicitor can be sidered.

Candidates should be under 40 years of age and should normally have had at least four years' practical erience in their profession.

Initial salaries are seldom less than £600 p.a. and in many cases are substantially higher.

COLONIAL MEDICAL SERVICE.

The Colonial Medical Service was constituted as a "unified" service with effect from the 1st of January, 14. Officers are appointed to the Service by the Secretary of State and are liable to be posted at his discretion. e wishes of individual officers are, however, consulted as far as possible, both as regards posting on first pointment and as regards subsequent transfer.

The average annual number of appointments for Medical Officers made during the period 1926–1930 was In 1931, as a result of the general financial depression, the actual number of appointments made was 35 d this figure fell to 12 and 22 in the years 1932 and 1933 respectively. 31 appointments were made in 14; 48 in 1935; 53 in 1936; 47 in 1937; and 54 in 1938. It is not possible to forecast actual require- nts in the immediate future.

Vacancies may occur at any time of the year and are dealt with as circumstances require. Candidates should under 35 years of age, must be fully qualified and must be on the Medical Register. Preference is given candidates who have held hospital or public health appointments or who have special knowledge of esthetics, radiology, surgery, medicine, ophthalmology, gynæcology and midwifery, diseases of the ear, se and throat, venereal diseases, etc. In the case of Lady Medical Officers, for whom there are occasional cancies, experience in child welfare work is almost invariably essential.

Selected candidates are normally required to undergo a course of instruction in Tropical Medicine and giene before proceeding overseas.

The majority of vacancies for Medical Officers occur in West Africa, East Africa and Malaya. The vacancies Lady Medical Officers are usually confined to West Africa and Malaya.

Commencing salaries in West Africa, East Africa and Malaya are normally £660, £600, and £700 per annum pectively, but it should be noted that the salary scales in East and West Africa are at present under revision.

Vacancies occasionally occur for Medical Entomologists.

DENTAL SURGEONS.

It is very rarely that a vacancy for a Dental Surgeon occurs. The conditions of these posts vary too much general information to be given.

COLONIAL AGRICULTURAL SERVICE.

The Colonial Agricultural Service was constituted as a "unified" service with effect from the 1st of October, 35. It includes appointments for officers for general investigational, advisory and similar duties, as well for agricultural specialists, such as botanists, mycologists, entomologists and agricultural chemists. In ure, almost all vacancies for agricultural officers and agricultural specialists are likely to be filled by the ection of Colonial Agricultural Scholars on completion of their training (see below). For any further vacan- s candidates with University degrees in agriculture or natural science who have continued post-graduate idy or research for periods similar to those of Colonial Agricultural Scholars would be most likely to be ected. A few vacancies may also be available, in addition to the above, in connection with the inspection crops and of produce for export. For these appointments candidates are usually required to be in possession

Digitized by Google

of a degree or diploma in agriculture or horticulture. The Secretary of State is also occasionally asked to vacancies of a definitely horticultural nature in connection with the care of botanic gardens or fruit cultiva For these a horticultural qualification such as that obtainable at the Royal Botanic Gardens, Kew, or horticultural diploma of an Agricultural College, is required.

The majority of appointments are filled in July and August, but vacancies may be filled at other ti Candidates should usually be over 21½ and under 30 years of age. Commencing salaries usually vary £400 to £500.

The Secretary of State offers annually in the summer a certain number of Colonial Agricultural Scholarsh These are post-graduate scholarships, tenable in most cases for two years, one of which is spent in this coun and the other at the Imperial College of Tropical Agriculture in Trinidad or some other institution abro The scholarships are intended to provide a pool of men trained in agriculture and agricultural science fr which vacancies in the Colonial Agricultural Service can be filled. Candidates should possess, or be about qualify for, a degree in agriculture or natural science. The value of a scholarship is:—

(i) Whilst a scholar is in this country: £200 per annum with payment of fees for tuition and, if necessa of matriculation and examination fees;

(ii) Whilst a scholar is abroad: £225 per annum with payment of passages and of cost of travelli required, among the West Indian Islands or elsewhere; and also of tuition fees up to a maxim of £75;

(iii) Each scholar will also receive an allowance not exceeding £5 for the purchase of approved boo

COLONIAL VETERINARY SERVICE.

The Colonial Veterinary Service was constituted as a "unified" service with effect from the 1st of Octo 1935.

Several vacancies for veterinary officers or veterinary research officers may normally be expected to ar annually in the Colonial Veterinary Service. The majority of these vacancies are normally filled by selection of Colonial Veterinary Scholars on completion of their training (see below), though urgent vacan may be filled, as and when they occur, by the appointment of candidates possessing the Diploma of Mem ship of the Royal College of Veterinary Surgeons or a veterinary qualification obtained in one of the s governing Dominions. Candidates should be over 21½ and under 30 years of age on assuming their d overseas. Commencing salaries in the larger Veterinary Departments vary between £560 and £630 per ann

The Secretary of State offers annually, in the summer, a limited number of Colonial Veterinary Scholarsh and Studentships. These are of a post-graduate nature and are intended to provide a pool of qualified c didates from which vacancies in the Colonial Veterinary Service can be filled. It is intended to main less than four awards annually until further notice. Candidates for Scholarships should possess, or be l to qualify for, a science degree of a British University or some equivalent qualification. A Scholarship ordinarily be tenable for four years, to enable the holder to qualify for the Diploma of M.R.C.V.S., and t be of the value of £200 a year, with provision for training fees and an allowance for the purchase of appr books in addition. Candidates for Studentships should possess or be about to qualify for the Diplo Membership of the Royal Veterinary College or a veterinary qualification obtained in one of the self-gover Dominions. A Studentship will usually be tenable for one year and will be of the value of £300 a year, incl provision for training fees; but an allowance not exceeding £5 for the purchase of approved books is paid in addition.

COLONIAL FORESTRY SERVICE.

The Colonial Forest Service was constituted as a "unified" service with effect from the 1st of Janu 1935.

A limited number of vacancies for Assistant Conservators of Forests may be expected to occur each ye The average number of vacancies during the past four years has been nine.

For the present, such vacancies will be filled by the selection of graduates in Forestry who will unde a course of one year's duration at the Imperial Forestry Institute after a period of practical experience the Colonial Forest Department for which they have been selected. Candidates should usually be over and under 30 years of age. The commencing salaries of Assistant Conservators of Forests vary betw £400 and £500 a year.

It is hoped to bring into operation in 1940 a scheme designed to widen the field of recruitment by offe scholarships in Forestry (on the analogy of the Colonial Agricultural and Veterinary Scholarships) for w candidates who have already taken honours in less specialized subjects will be eligible.

ZOOLOGICAL APPOINTMENTS.

Vacancies occasionally arise in connection with mosquito, tsetse-fly, and similar investigations, wh are open to graduates in zoology or natural science who have specialised in medical Entomology. Vacanc for entomologists occur, however, rather more frequently in the Colonial Agricultural Service (see ab There are also occasional openings for trained Zoologists in Colonial Fisheries, Game Preservation and Mus Departments.

THE COLONIAL CHEMICAL SERVICE.

The Colonial Chemical Service was constituted as a "unified" service with effect from the 1st of Janua 1939. Some three or four vacancies are usually available in each year for officers for general analytical wo (*i.e.*, as Government Chemists or Analysts). A candidate should usually be over 21½ and under 35 years of a be an associate of the Institute of Chemistry, and should possess a good University Degree in Chemis The certificate of the Institute of Chemistry in Branch E. (Foods, Drugs, etc.) is a valuable additional quali cation and is sometimes essential. The duties usually include any analytical work required by Governme which falls outside the scope of the Agricultural Chemist (*e.g.*, the examination of stores, foods, drugs, wat ores, etc., and bacteriological and medico-legal work). There are also occasional vacancies for specialists bio-chemistry for Medical and other Departments. Initial salaries vary between £400 and £600.

COLONIAL GEOLOGICAL SURVEY SERVICE.

ıe Colonial Geological Survey Service was constituted as a "unified" service with effect from the 1st of ıary, 1938.

ıcancies for Geologists are not of very frequent occurrence, and are filled as and when they occur.

ındidates should be between the ages of 21½ and 35. They should possess a University Degree, preferably ı Honours, ensuring a good general knowledge of geology, and also have carried out independent field stigations.

ɔmmencing salaries vary from £400 to £600.

COLONIAL MINES SERVICE.

he Colonial Mines Service was constituted as a "unified" service with effect from the 1st of January, 1938. few vacancies are usually available each year, and are filled as and when they occur.

he age limits are 21½ to 35.

andidates should hold a Degree or Diploma in metalliferous mining of a British University or School Mines. Practical experience of metalliferous mining is usually required.

'ommencing salaries vary from £475 to £560.

COLONIAL SURVEY SERVICE.

'he Colonial Survey Service was constituted as a "unified" service with effect from the 1st of January, 1938.

'he annual number of vacancies for Survey Probationers before 1931 varied considerably, but about 12 e expected annually. In 1931 only three were filled, and during the succeeding four years recruitment s suspended. Four vacancies were filled in 1936, five in 1937, and seven in 1938.

'elections are usually made during June.

'andidates should be not less than 21 and under 28 on the 1st of July in the year in which the selection es place. They should either be in possession of an Honours Degree in mathematics, physical sciences, engineering, or certain other equivalent qualifications.

'ompleted application forms must be submitted before the 30th of April.

'elected candidates usually undergo a 6 to 8 months' course of training under the Ordnance Survey Office, ıthampton, followed in some cases by a year's training at Cambridge. During these courses allowances paid at the rate of £50 a quarter at Southampton and £75 a term at Cambridge. Commencing salaries ry from £400 to £490.

METEOROLOGICAL APPOINTMENTS.

A limited number of vacancies may be expected to arise in Colonial Meteorological Services and Observatories ch year. Candidates should usually be between the ages of 21½ and 35 and hold a good Honours degree in ıthematics or Physics. Before taking up their duties selected candidates may be required to undergo a ırse of training in meteorological work of from three to six months' duration in this country during which allowance is paid to them.

ARCHÆOLOGICAL AND ETHNOGRAPHICAL APPOINTMENTS.

Vacancies of this nature are rare, but the Secretary of State may occasionally be asked to select a trained chæologist or Anthropologist for a Museum appointment.

ECCLESIASTICAL APPOINTMENTS.

The Secretary of State is rarely called upon to fill an Ecclesiastical appointment. If a post falls vacant a ndidate is selected in some special manner with particular reference to the requirements and circumstances the Office.

No list of candidates is kept at the Colonial Office.

HARBOURMASTER APPOINTMENTS.

Vacancies occur very infrequently for Port Officers or Harbourmasters.

Candidates for such appointments must either—(1) have held a commission in the Royal Navy, or (2) ıve held a Master's or extra Master's certificate, and be an officer of the Royal Naval Reserve.

The conditions of these posts vary too much for general information to be given. The better paid posts e, however, usually filled by promotion from within the Colonial Service.

IMMIGRATION APPOINTMENTS.

On very rare occasions vacancies have occurred in the Immigration Department of a Colony which provides cilities for the immigration of natives of India.

For such a vacancy a competent knowledge of one or more Indian languages would be essential.

AVIATION APPOINTMENTS.

The openings in connection with aviation in the Colonial Service are at present limited. When a vacancy ccurs the Air Ministry is asked to advise as to the selection of a suitable candidate.

PERSONAL STAFF APPOINTMENTS.

Appointments, such as those of Private Secretary and Aide-de-Camp, on the personal staff of the Governor f a Colony are made by the Governor concerned. It occasionally happens, however, that a Governor asks he Secretary of State to recommend a suitable officer to act in such a capacity. A candidate who wishes

Digitized by Google

his name to be noted for consideration, in the event of such a request being made, should apply in writing the Director of Recruitment (Colonial Service). As a rule only unmarried candidates are selected for a appointments. Previous experience in a similar position is valuable, but not as a rule essential. For appointment as Aide-de-Camp an officer, or ex-officer, of H.M. Forces is usually selected.

OTHER APPOINTMENTS.

Vacancies in Departments, other than those already mentioned, may occasionally occur. Owing to the diversity, however, it is not possible to give any general account of the qualifications which might be required.

(II) APPOINTMENTS IN THE COLONIAL SERVICE WHICH ARE FILLED BY THE CROWN AGENTS FOR THE COLONIES.

The appointments mentioned in the paragraphs which follow are filled, as and when vacancies occur, by the *Crown Agents for the Colonies*, 4, *Millbank*, *S.W.*1., from whom further details may be obtained on requ

COLONIAL REGULATIONS.

PART I.—PUBLIC OFFICERS.

CHAPTER I.—Application of the Regulations.

1. The Regulations* apply to public officers serving in the following Dependencies:—

Bahamas.
Barbados.
Bermuda.
British Guiana.
British Honduras.
British Solomon Islands Protectorate.
Ceylon.
Cyprus.
Falkland Islands.
Fiji.
Gambia.
Gibraltar.
Gilbert and Ellice Islands Colony.
Gold Coast (including Togoland).
Hong Kong.
Jamaica.
Kenya.
Leeward Islands.
Malta.
Mauritius.
Nigeria (including the Cameroons).
Northern Rhodesia.
Nyasaland Protectorate.
Palestine.
Saint Helena.
Seychelles.
Sierra Leone.
Somaliland Protectorate.
Straits Settlements.
Tanganyika Territory.
Trinidad and Tobago.
Uganda Protectorate.
Windward Islands.
Zanzibar Protectorate.

Note (1).—The Regulations do not in themselves apply to officers in the service of the Federated Malay States, but the principles of the Regulations are applied to such officers by the incorporation of the substance of the Regulations in the Federated Malay States General Orders.

Note (2).—These Regulations apply to the British Resident, Trans-Jordan, and his staff.

2. In these Regulations the term "Colony" includes any territory in which the Regulations are applied; and the term "Governor" includes all officers appointed to administer Governments, however styled.

CHAPTER II.—Governors.

A. *Appointment.*

3. A Governor is appointed during His Majesty's pleasure, but his tenure of office is as a rule confined to a period of five years from his assumption of the administration.

B. *Salary and Leave.*

4. When the office of Governor becomes vacant or when the Governor is on leave, other than full-pay leave, the person succeeding to the administration of the Government, if he be an officer in the service of the Colony, shall receive half the salary of the Governor, and half the salary of his own office.

Should the person called to the temporary administration have been transferred from the public service elsewhere, he shall receive the whole salary of the Governor, if available, but in that case he shall not be entitled to any portion of the salary of the office from which he has been transferred. During the absence on leave, other than full-pay leave, of a Governor, and after the embarkation of a newly-appointed Governor, such person is only entitled to the half salary available. Whether he may also receive half the salary of the office from which he has been temporarily transferred shall depend on the arrangements made for payment of his substitute, and shall be decided in each instance by the Secretary of State.

This Regulation does not apply to European officers in Tropical Africa.

5. The leave of a Governor is regulated by special rules of local application; but in most of the Colonies the Governor may be granted leave with full salary, exclusive of entertainment or duty allowance, for a period not exceeding six weeks in any one year. In the absence of the Governor from the Colony the officer administering the Government shall receive in full any allowance provided for entertainment and also any duty allowance.

6. If the period of a vacancy or of the absence of the Governor should exceed nine months, and there should be any salary available, reasonable arrangements shall be made, with the approval of the Secretary of State, for the increase of the salary of the temporary holder for the period of excess.

7. A Governor on appointment shall receive half salary if available from the date of embarkation for the Colony. An officer succeeding to the administration of a Government shall be entitled to be paid in respect of the day on which he assumes the administration. The officer whom he succeeds shall not be entitled to any payment for that day in respect of the administration of the Government.

8. If a Governor is transferred from one Colony to another and visits England on his way, and if the Secretary of State is satisfied that the visit is unavoidable or in furtherance of the public interest, he shall receive as a general rule the half salary of the office which he relinquishes, until the date of his embarkation from England: but if such half salary is not available he shall, as a general rule, receive the half salary of his new office. If no half salary is available from either Government, he can receive no salary.

C. *Passages.*

9.—(1) The following is the scale of allowances granted from Imperial funds to Governors appointed for the usual term of years in respect of their passages from this country:—

Aden	£450	Ceylon	£500
Bahamas	400	Cyprus	370
Barbados	330	Falkland Islands	580
Bermuda	350	Fiji	740
British Guiana	330	Gambia	370
British Honduras	350		

* In certain Dependencies the application of particular Regulations has been modified with the sanction of the Secretary of State.

Digitized by Google

Gibraltar	£210	Palestine	£340
Gold Coast	440	Saint Helena	450
Hong Kong	660	Seychelles	650
Jamaica	300	Sierra Leone	390
Kenya	630	Somaliland	100
Leeward Islands	330	Straits Settlements	630
Malta	300	Tanganyika Territory	640
Mauritius	720	Trinidad and Tobago	330
Nigeria	450	Uganda	630
Northern Rhodesia	600	Windward Islands	330
Nyasaland	690		

The passages of the Commissioner of Somaliland and the British Resident, Zanzibar, are paid from the funds of those Protectorates.

(2) When a Governor is appointed for less than the usual term of years the question of the amount of the passage allowance to be paid will be decided according to the circumstances of the case.

(3) The scale of allowances shown in this Regulation shall be liable to revision from time to time as the Secretary of State and the Lords Commissioners of the Treasury may determine.

10. A Governor is not entitled to any passage allowance from Imperial funds when proceeding on, or returning from, leave of absence.

11. On the expiration of his term of office a Governor shall be granted a passage allowance in respect of the homeward journey of the same amount as that provided for the outward journey; but the allowance may not be drawn without the previous sanction of the Secretary of State.

12. A Governor who is relieved at his own request before the expiration of his term of office must provide his own passage.

13. A Governor transferred to another appointment before the expiration of his term of office shall receive such passage allowance as may be determined by the Secretary of State and the Lords Commissioners of the Treasury to be appropriate in the particular circumstances of the case.

14. A Governor who is transferred while in the United Kingdom on leave, other than final leave at the expiration of his term of office, and who does not return to his old Colony, shall receive the authorised passage allowance from England to his new Colony. If the usual route from his old to his new Colony is via England he may also be granted at the discretion of the Secretary of State a proportion not exceeding one-half of the homeward passage allowance from his old Colony to England.

D. *Passages in His Majesty's Ships.*

15. No passage in His Majesty's ships shall be given to Governors or other public officers at the public expense except on the application of the Governor to the senior naval officer on the station. The expense for the entertainment of such passengers will not be paid from public funds, unless the Secretary of State approves.

16. The expense for the entertainment on board of His Majesty's ships of a Governor or other public officer must be paid to the paymaster of the ship at the end of the voyage, and, if possible, before leaving the ship.

17. The scale of allowance for entertainment on His Majesty's ships at the table of the Captain or Commanding Officer is as follows:—

I. For any Governor or High Commissioner whose salary is not less than £3,000 per annum exclusive of allowances, £4 per diem for the first *seven* days, and afterwards 21s. a day.

II. For any other Governor, or for a Lieutenant-Governor, Administrator, or Commissioner, £3 per diem for the first *seven* days, and afterwards 21s. a day.

III. For the persons composing the suite of Governors, etc., 21s. a day for each male person above the age of 16; two-thirds of that sum for every female above 16; one-third for such of either sex as shall be between the ages of 7 and 16; and one-fourth for such as may be under 7 years of age.

IV. For other public officers 21s. a day for the first *fourteen* days, and 15s. a day afterwards: and the proportions with respect to age and sex as stated in the preceding paragraph.

Payment for entertainment in His Majesty's ships is to be calculated according to the dates of the first and last dinners taken on board.

18. When a Governor or other public officer is proceeding in a ship of war on a tour of inspection which requires him to disembark at various ports, the higher rate per diem shall in general only be paid for the seven days' entertainment following his first embarkation. If there are special reasons for repeating this higher rate, it must form the subject of special representation to the Secretary of State before it is made.

19. When a Governor or other public officer disembarks for the purpose of performing bona fide public service, and has not been able to give the Captain or Commanding Officer beforehand such information as to the days on which he will be absent from the ship as will prevent expense in preparing for his entertainment on those days, one-half of the rates of allowance above authorised shall be payable in respect of such absence, and each day in respect of which such half-rates are paid shall be counted as a full day for the purpose of computing the seven or fourteen days referred to in the preceding Regulations.

CHAPTER III.—Officers.

A. *Appointments.*

20. The Regulations as to appointment to public offices are directions given by the Crown to the Governors for general guidance and do not constitute a contract between the Crown and its servants.

21. Appointments to public offices are made by authority of His Majesty, and such offices are held during His Majesty's pleasure.

Digitized by Google

22. Judges of the Supreme Court are appointed in His Majesty's name by an instrument under the Public Seal of the Colony. Other appointments to public offices are made either (*a*) by letter signed by the Governor or written by his direction, or (*b*) by a formal agreement between the officer and the Colonial Government or its appointed agent.

23. Public offices are divided into three classes :—

Class I. Those of which the initial emoluments do not exceed two hundred pounds per annum.

Class II. Those of which the initial emoluments exceed two hundred but are less than four hundred pounds per annum.

Class III. Those of which the initial emoluments are not less than four hundred pounds per annum.

24. When a vacancy occurs in Class I an appointment may be made by the Governor.

25. When a vacancy occurs in Class II a provisional appointment may be made by the Governor and shall be reported to the Secretary of State for approval in the quarterly return of officers newly appointed to public offices in Classes II and III.

26. The powers of the Governor under the two preceding Regulations do not extend to the appointment or provisional appointment of a person not resident in the Colony.

27. The appointment to a public office of a person who has been connected with the Governor as a private secretary, aide-de-camp, or otherwise, is open to objection and must not be made without previous reference to the Secretary of State.

28. When a vacancy occurs in Class III the Governor shall report it immediately to the Secretary of State. The Governor may recommend a candidate to fill the vacancy, but it must be clearly understood that the Secretary of State may select another candidate. Any person who is appointed to act in the vacant office shall be distinctly informed that he holds the office only until his appointment is confirmed or superseded under directions from the Secretary of State.

29. In reporting a vacancy in Class III, the Governor shall furnish in duplicate full particulars of the office in the form given in Appendix 1.

30. In the selection of candidates for vacant offices in Classes II and III, the claims of meritorious public officers in the Colonial Service will generally take precedence of those of persons not already in the service.

31. Unless otherwise provided in the conditions of employment, the appointment of an officer not already in the service shall be subject to a period of probation in accordance with regulations approved by the Secretary of State. The Governor shall have power to terminate an officer's probationary appointment, without assigning any reason, during the period of probation. At the end of the period of probation the officer shall, unless his probationary appointment is terminated or extended, be confirmed in his appointment. The confirmation of an officer holding a post in Class III, or the termination or extension of the probationary appointment of such an officer, shall be subject to the approval of the Secretary of State.

32. The claims of officers for promotion will be considered on the basis of official qualifications, experience, and merit.

33. The Governor shall, save as otherwise directed by the Secretary of State, furnish annually a confidential report on the form given in Appendix 2 on every officer falling within any of the following categories :—

(*a*) Officers holding posts in Class III with eight or more years' service.

(*b*) Officers drawing £700 per annum or over.

(*c*) Officers who are not included in (*a*) or (*b*) who are heads of departments, or who are regarded as specially fitted for promotion or for transfer in the Colonial Service.

The Governor's report to the Secretary of State shall not be shown to the officer except on the order of the Governor: but the Head of the Department (or Reporting Officer) shall communicate the substance of his report to the officer, if it draws attention to faults or shortcomings which it may be within the officer's power to amend.

The Governor shall also submit an annual report on officers on the active list of the Army seconded for employment in the Colony, on whom reports are not made to the War Department direct.

B. *Acting Appointments.*

34. During the absence on full-pay leave of the substantive holder of an office, the arrangements made for the discharge of the duties of the office shall not involve any extra cost to public funds except :—

(*a*) where the Secretary of State has approved local regulations governing the grant of special remuneration in such cases, or

(*b*) in very special circumstances with the approval of the Secretary of State.

35. When an office is vacant in a Colony for any reason other than the absence on full-pay leave of the holder the person appointed to act in that office shall be remunerated as follows :—

(1) When the person appointed is not in the public service he shall be remunerated at such a rate as the Governor may decide, but not exceeding the initial emoluments of the office in which he is acting.

(2) When he is the holder of another office but is not required to discharge the duties of that office while acting :—

(*a*) If his substantive emoluments are not less than the minimum emoluments of the office in which he is acting, he shall continue to receive the former :

(*b*) Otherwise he shall receive half the initial salary of the office in which he is acting and half the initial salary of his substantive office, and all the increments which he has earned in his substantive office, and any personal allowance to which he may be entitled, provided that he shall not receive in all more than the minimum emoluments of the office in which he is acting.

(3) When he is the holder of another office and is required to discharge the duties of that office in addition :—

(*a*) If the offices are distinct and separate offices in different departments or do not stand to one another in any immediate relation of superiority or subordination, he shall receive half the initial emoluments of the office in which he is acting and the whole of his emoluments in his substantive office;

Digitized by Google

(*b*) Otherwise he shall be remunerated as though his case fell under section 2 of this Regulation.

For the purpose of this Regulation :—

(1) *An officer's emoluments* comprise the whole of his receipts from public funds other than fees and allowances for out-of-pocket expenses.

(2) *The emoluments of the office* are the emoluments paid in virtue of occupation of the office and do not include any allowances of a personal nature.

36. House allowance, if any, payable in respect of the office in which an officer is acting shall be paid to him if it is at a higher rate than the house allowance payable in respect of his substantive office ; the latter shall in that event lapse, or accrue to the person, if any, appointed to act in the office. In no case may a person receive house allowance in respect of more than one office.

37. The fees, if any, of the vacant office shall be dealt with by local regulation.

C. *Seniority.*

38. Except where otherwise provided seniority as between persons selected for appointment from outside the Colony shall be determined by the date of arrival in the Colony. Where, however, two or more persons selected from outside the Colonial Service arrive on the same date seniority *inter se* shall be determined by the date of the letter from the Colonial Office confirming the selection, or, in the case of officers engaged on agreement, by the date of the agreement. Seniority in any department shall be determined by the date of an officer's appointment to the particular class or grade in which he is serving.

D. *Salaries and Allowances.*

39. On appointment to an office of a person not within the Colony, as a general rule half salary shall be paid as from the date of embarkation, and full salary from the date of arrival in the Colony, provided that the officer proceeds direct to the Colony to which he is appointed ; otherwise he shall be paid half salary for such time only as is ordinarily required to perform the journey between the port of embarkation and that of arrival in the Colony.

40. If the appointment of an officer who is acting in a vacant office is confirmed, he shall receive the full salary of that office, if available, from the date on which he entered on the duties, but from the date from which he receives such full salary he shall not be entitled to salary on account of any other office which he may have held at the same time.

41. An officer who is promoted in the ordinary course in the Colony in which he is serving shall be eligible to receive the salary of his new scale, grade, or office, if it be available, as from the date when the vacancy occurred, even if he is on leave of absence at the date in question.

42. When the salary of an office is on an incremental scale, the holder shall not be entitled to draw any increment as of right, but only by sanction of the Governor. In the case of an officer (not being the head of a department) a certificate shall be required from the head of his department that he has discharged his duties with efficiency, diligence, and fidelity.

43. Except as otherwise provided an officer's incremental date shall be the date on which he takes up his appointment in the Colony.

44. Except in a case of promotion from a non-pensionable to a pensionable office, the following rules shall apply when an officer is promoted in the ordinary course in the Colony in which he is serving to an office carrying salary on an incremental scale :—

(i) If immediately prior to his promotion the salary of the officer was less than the minimum of the new office, he shall receive the minimum ; but if he was qualifying for increment in his former office and had already earned such an amount of increment as would bring his salary up to the minimum of the scale of his new office, then any balance of the increment in his former scale shall, subject to rule (iv), be taken into account in fixing the date of his first increment in his new scale.

(ii) If his salary was not less than the minimum of the new office he shall, subject to rules (iii) and (iv), continue to receive his existing salary until by length of service at his new incremental rate he has earned such an amount of increment as will bring him to the next higher incremental step in his new scale. But, if he was qualifying for increment in his former office, the date of increment in his new scale shall, subject to rule (iv), be advanced proportionately even though it may mean the immediate grant of one increment and the advancement of the normal date for a further increment.

(iii) If the maximum (or fixed) salary of his former office was not less than the miminum of his new office and he has at the date of his promotion served at that salary for a period exceeding one year, then one-half of such excess period shall, subject to rule (iv), count towards an increment in his new scale, but in no case shall he be given more than one increment on this account.

(iv) If his former office was one to which no duty, seniority, or similar non-pensionable allowance was attached, and he is promoted to an office carrying such allowance, he shall serve for a full incremental period in the new office before becoming eligible for an increment.

The term "salary" in this Regulation shall include any personal or other allowance which is payable in money and which ranks as a pensionable emolument.

45. When an officer receives, in addition to the salary of his office, an allowance granted to himself personally, and not permanently attached to his office, he may when absent on half-pay leave receive only half of such personal allowance, the remaining moiety being left undrawn and lapsing to the Colonial Treasury.

46. When an officer on leave is entitled only to half pay no private arrangement is to be made with the object of securing to him more than half pay.

47. An officer on leave shall not be eligible for any transport, travelling, or house allowance, or any fees.

48. An officer may, during periods of resident service, remit through the Crown Agents for the Colonies in single equal monthly instalments a portion of his salary for payments to any bank, firm, or person he may

name. Such payments shall not, as a rule, exceed half his salary, exclusive of duty pay and local allowances, but in exceptional cases the Governor may authorise remittances in excess of half salary. Requests for such payments may be made to the Crown Agents direct, before the departure of the officer from the United Kingdom, and will then remain operative until (1) altered or cancelled by the Colonial Government concerned through which all subsequent communications on the subject shall be sent, or (2) the officer comes on leave or his leave certificate reaches the Crown Agents.

49. No officer shall be entitled to claim compensation in respect of losses of or damage to private property incurred through fire, theft, riot, or otherwise, in the course of his service; but in special cases, subject to any local regulations, the Governor may consider the grant of compensation as an act of grace. No such concession shall, however, be made in respect of losses which in the opinion of the Governor were due to negligence for which the officer was responsible or which could reasonably have been covered by insurance.

E. *Conduct and Discipline.*

(*a*) *General provisions.*

(N.B.—Further Regulations concerning the conduct of officers in connection with the receipt, custody, and disbursement of public funds and the custody of Government stores, etc., will be found in Part II, Chapter VII, of the Regulations.)

50. Officers are required to discharge any duties upon which the Governor may think it desirable to employ them.

51. An officer who is absent from the Colony without permission shall be liable to summary dismissal.

52. An officer whose remuneration is fixed on the assumption that his whole time is at the disposal of the Government is prohibited from engaging in trade, or employing himself in any commercial or agricultural undertaking.

53.—(1) An officer, whether or not his whole time is at the disposal of the Government, shall on appointment to the service of any Colony disclose to the Governor particulars of any investment or shareholding which he may possess in any company carrying on business in the Colony, or any other direct or indirect interest in such company, or in any local occupation or undertaking. If the Governor shall decide that by reason of the facts disclosed the officer's private affairs might be brought into real or apparent conflict with his public duties or in any way influence him in the discharge of his duties, the officer shall to such extent as the Governor may direct divest himself of such investments or interests.

(2) An officer shall not directly or indirectly acquire investments or interests of the nature mentioned in this Regulation without the express permission of the Governor.

54. Serious pecuniary embarrassment, from whatever cause, will be regarded as necessarily impairing the efficiency of an officer and rendering him liable to disciplinary proceedings at the discretion of the Governor.

55. An officer on leave of absence shall not accept any paid employment without previously obtaining the express sanction of the Secretary of State or, if his leave is spent in the Colony, of the Governor.

56. An officer shall not undertake any private agency in any matter connected with the exercise of his public duties.

57. An officer shall not, without the express permission of the Secretary of State or of the Governor, act as the editor of any newspaper, nor take part directly or indirectly in the management thereof, nor contribute anonymously thereto, nor publish in any manner anything which may be reasonably regarded as of a political or administrative nature.

He may, however, publish in his own name matter relating to subjects of general interest.

58. An officer, whether on duty or on leave of absence, shall not allow himself to be interviewed on questions of public policy or on matters affecting the defence or military resources of any part of the British Empire.

59.—(*a*) Governors and all other officers are prohibited from receiving valuable presents (other than the ordinary gifts of personal friends), whether in the shape of money, goods, free passages, or other personal benefits, and from giving such presents.

(*b*) This Regulation applies not only to the officers themselves but also to their families, and officers will be held responsible for its observance by their families. It does not apply to cases of remuneration for special services rendered and paid for with the consent of the Government.

(*c*) This Regulation may be relaxed on the occasion of an officer's retirement from the public service, but only with the special permission of the Secretary of State previously obtained.

60. Presents from rulers, chiefs, and other persons which cannot be refused without giving offence shall be handed over to the Government.

When presents are received on behalf of the Colonial Government in ceremonial intercourse they shall be handed over to the Government, and any return presents shall be given at the Government expense.

61. Money which has been subscribed with a view to marking public approbation of an officer's conduct may be dedicated to objects of public purpose and connected with the name of the person who has merited such a proof of the general esteem.

62. The Governor shall not without special permission accept or forward any articles for presentation to His Majesty.

(*b*) *Disciplinary procedure.*

63. Holders of patent offices may be amoved from such offices by the Governor in Council under Section 2 of the Act 22 Geo. 3, c. 75, or they may be suspended or dismissed by the Governor under the powers in that respect conferred by the Letters Patent or other instrument of Government.

In either case the procedure prescribed under Regulation 68 should be adopted.

In the case of amotion an appeal lies as of right to His Majesty in Council.

In the case of suspension the Secretary of State will as a general rule refer to His Majesty in Council the question whether the dismissal of the officer should be authorised.

Digitized by Google

64. An officer holds office subject to the pleasure of the Crown, and the pleasure of the Crown that he should no longer hold it may be signified through the Secretary of State, in which case no special formalities are required.

65. If it is represented to the Governor that an officer has been guilty of misconduct, and the Governor is of opinion that the misconduct alleged is not serious enough to warrant proceedings under Regulations 66 and 68, with a view to dismissal, he may cause an investigation to be made into the matter in such manner as he shall think proper, and the officer shall be entitled to know the whole case made against him, and shall have an adequate opportunity throughout of making his defence.

If as a result the Governor is of opinion that the allegation is proved, he may inflict such punishment upon the officer by way of fine or reduction in rank, or otherwise, as may seem to him just.

In the case of an officer whose pensionable emoluments exceed £200 a year any such punishment shall be immediately reported to the Secretary of State and the report shall be accompanied by a statement of the offence, the evidence in support, and such observations as the officer has made or desires to make. The Secretary of State may approve, vary, or remit the punishment.

This Regulation is without prejudice to any local law or regulation providing for the punishment of officers by the Governor or the head of a department.

66. An officer whose pensionable emoluments do not exceed £200 a year may be dismissed by the Governor, provided that in every such case where the officer has not been convicted on a criminal charge the grounds of intended dismissal are definitely stated in writing, and communicated to the officer in order that he may have full opportunity of exculpating himself, and that the matter is investigated by the Governor with the aid of the head of the department.

If such an officer is convicted on a criminal charge, the Governor may call for the records of the trial and form his decision thereon, with the assistance if necessary of the officer who tried the case.

In lieu of dismissal the Governor may remove the officer to an office of lower rank in the service, or may require him to serve in his original office at a reduced salary, either permanently or for a stated period, or may deduct a portion of salary due, or about to become due, to the officer. Such dismissal or other punishment will not require the confirmation of the Secretary of State, but any memorial from the officer must be forwarded to the Secretary of State without delay with a statement of the grounds of dismissal or other punishment.

67. Notwithstanding the above provisions, if the Governor considers that any such officer should be removed from the service on grounds of general inefficiency, he must call for a full report from the heads of the departments in which the officer has served; and if, after considering that report and giving the officer an opportunity of submitting representations on his own behalf, he is satisfied that it is necessary in the public interest, he may remove the officer. In every such case the question of pension will be dealt with under the laws or regulations of the Colony.

68. An officer whose pensionable emoluments exceed £200 a year may be dismissed by the Governor only in accordance with the following rules unless the method of dismissal is otherwise provided for in these Regulations or by local law:—

(i) The officer shall by direction of the Governor be notified in writing of the grounds on which it is proposed to dismiss him and he shall be called upon to state in writing before a day to be specified (which day must allow a reasonable interval for the purpose) any grounds upon which he relies to exculpate himself.

(ii) If the officer does not furnish such statement within the time fixed by the Governor, or if he fails to exculpate himself to the satisfaction of the Governor, the Governor shall appoint a Committee to inquire into the matter. The Committee shall consist of the Attorney-General, as Chairman, and two other members of the Executive Council.

(iii) The officer shall be informed that on a specified day the question of his dismissal will be brought before the Committee and that he will be allowed and, if the Committee shall so determine, required to appear before the Committee and defend himself.

(iv) If witnesses are examined by the Committee, the officer shall be given an opportunity of being present and of putting questions to the witnesses on his own behalf, and no documentary evidence shall be used against him unless he has previously been supplied with a copy thereof or given access thereto.

(v) The Committee may, in its discretion, allow the officer to be assisted by a friend, being an officer in the public service, or in exceptional circumstances by counsel, and when such permission is given the officer's case may be conducted by such friend or counsel.

The Committee may at any time withdraw their permission to the officer to be so represented, and refuse to hear his friend or counsel, in which case they shall allow the officer such adjournment as is reasonably necessary to enable him to present his case in person.

(vi) If during the course of the inquiry further grounds of dismissal are disclosed, and the Governor thinks fit to proceed against the officer upon such grounds, the officer shall by the Governor's direction be furnished with a written statement thereof and the same steps shall be taken as are above prescribed in respect of the original grounds.

(vii) The Committee having inquired into the matter shall make a report to the Governor, who shall consider the same in Executive Council. If the Council are of opinion that the report should be amplified in any respect or that further inquiry is desirable, they may refer any matter back to the Committee for further inquiry or report accordingly. The Council shall not itself hear witnesses save in exceptional circumstances and at the request of the Governor.

(viii) If upon considering the report of the Committee the Governor is of opinion that the officer should be dismissed he shall forthwith suspend him from the exercise of his office and from the enjoyment of his salary and shall without loss of time report the matter to the Secretary of State, transmitting the minutes of the Council, the report of the Committee, a copy of the evidence and of all material documents relating to the case, together with a recommendation that the officer should be dismissed.

(ix) If the Secretary of State approves the recommendation for dismissal, the Governor shall dismiss the officer and the dismissal shall take effect from the date upon which he was suspended by the Governor and he shall not be entitled to any salary subsequent to such date.

Digitized by Google

(x) If the Secretary of State does not approve the officer's dismissal, and does not consider that any penalty should be inflicted, the officer shall be forthwith reinstated and shall be entitled to the full amount of salary which he would have received if he had not been suspended.

(xi) If the Secretary of State considers that the officer deserves some punishment, but not dismissal, he will direct the Governor accordingly.

(xii) If upon considering the report of the Committee the Governor is of opinion that the officer does not deserve to be dismissed, but deserves some lesser punishment, he may inflict such lesser penalty as seems proper in the circumstances, but shall, as in the case of a recommendation for dismissal, report the matter to the Secretary of State for approval. If the Secretary of State does not approve the recommendation, he will direct the Governor to annul, reduce, or increase the punishment.

(xiii) If upon considering the report of the Committee the Governor is of opinion that the officer does not deserve to be dismissed, but that the proceedings disclose grounds for removing him on account of general inefficiency, he may recommend accordingly.

(xiv) An officer who has been suspended may, pending the decision of the Secretary of State thereon, be granted an alimentary allowance if the Governor shall consider him to be in need of such assistance.

69. If in any case the Governor considers that the public interest requires that an officer should cease to exercise the powers and functions of his office instantly, he may interdict the officer from the exercise of the powers and functions of his office provided that proceedings for his dismissal are being taken or are about to be taken, or that criminal proceedings are being instituted against him. Subject to Regulation No. 72, an officer who has been interdicted shall, unless and until he is suspended, be allowed to receive such proportion of the emoluments of his office, not being less than one-half, as the Governor shall think fit. If the proceedings against any such officer do not result in the dismissal or other punishment of the officer, he shall be entitled to the full amount of the emoluments which he would have received if he had not been interdicted.

70. If criminal proceedings are instituted against an officer, proceedings for his dismissal upon any grounds involved in the criminal charge shall not be taken pending the criminal proceedings.

71. If an officer is convicted on a criminal charge, the Governor may cause the proceedings of the Criminal Court on such charge to be considered in Executive Council, and if he is of opinion that the officer should be dismissed or subjected to some lesser penalty on account of the offence for which he has been convicted the officer may thereupon be dismissed or otherwise punished without any of the proceedings prescribed in Regulation 68 being taken, but the action must be reported to the Secretary of State for approval.

72. An officer convicted on a criminal charge shall not receive any emoluments from the date of conviction, pending consideration of his case by the Governor.

73. An officer acquitted of a criminal charge shall not be dismissed on any charge upon which he has been acquitted, but nothing in this Regulation shall prevent his being dismissed or otherwise punished on any other charges arising out of his conduct in the matter, provided that they do not raise substantially the same issues as those on which he has been acquitted; and if the Governor thinks fit the usual proceedings may be taken for the purpose.

74. An officer who is dismissed forfeits all claim to a retiring allowance, even though he has paid contributions towards such allowance.

75. An officer who is under interdiction or suspension may not, without the permission of the Governor, leave the Colony during the interval before he is reinstated or dismissed.

76. Notwithstanding the above provisions, if the Governor considers that an officer whose pensionable emoluments exceed £200 a year should be removed on grounds of general inefficiency which cannot properly be dealt with by specific charges under the foregoing rules, he must submit a full report upon the case to the Secretary of State, forwarding statements from the heads of the departments in which the officer has served and the officer's reply thereto; and if the Secretary of State is satisfied that the officer's removal is necessary in the public interest, it will be carried into effect by an intimation to the Governor that it is the pleasure of the Crown that the officer should no longer hold his office. In every such case the question of pension will be dealt with under the laws or regulations of the Colony.

(c) *Memorials and Petitions.*

77. Every officer who has any representations of a public or private nature to make to the Government should address them to the Governor through the Colonial Secretary. The duty of the Governor is to consider and act upon each representation as public expediency or justice to the individual may appear to require, with the assistance in certain cases of his Executive Council; and if he doubts what steps to take thereupon, or if public advantage may appear to require it, he shall refer the matter to the Secretary of State.

78. Any officer in a Colony has the right to address the Secretary of State, if he thinks proper; in which case he must transmit such communication, unsealed and in triplicate, to the Governor, requesting him to forward it in due course to the Secretary of State. Every letter, memorial, or other document which may be received by the Secretary of State from a Colony otherwise than through the Governor will be referred back to the Governor for his report or returned to the writer. The rule requiring transmission of communications to the Secretary of State through the Governor is based on the strongest grounds of public convenience, in order that all communications may be duly verified, as well as reported on, before they reach the Secretary of State. It extends, therefore, to communications relating to public affairs as well as to the concerns of the writer.

79. Petitions addressed to the King or the King in Council and memorials to officers or to departments of His Majesty's Government in the United Kingdom must be in like manner sent to the Governor for transmission to the Secretary of State.

Digitized by Google

80. The Governor shall transmit to the Secretary of State with all reasonable despatch every communication received by him in accordance with Regulations 78 and 79 accompanied by such report as its contents may appear to him to require.

F. *Passages.*

81.—(*a*) A person not already in the public service who is selected for appointment to a public office shall receive a free passage to the Colony, and he shall sign an agreement to refund the cost of the passage in certain contingencies.

(*b*) The question whether free or assisted passages to the Colony may be provided for an officer's wife and family on the occasion of his appointment and the question of passage assistance when he proceeds on leave, shall be governed by local regulations made with the approval of the Secretary of State.

G. *Leave.*

82. The leave of absence of officers shall be governed by rules of local application as directed by the Secretary of State.

83. The Governor shall report to the Secretary of State each case in which leave of absence from the Colony has been granted. If any part of the leave is to be spent in Europe he shall transmit a leave certificate in the approved form. The officer proceeding on leave shall be furnished with a duplicate of the certificate to enable him to draw his salary. A third copy of the certificate shall be sent direct to the Crown Agent for the Colonies, whether his salary is to be paid by the Crown Agents or not.

84. On arrival in Europe the officer shall report his arrival and address to the Colonial Office and the Crown Agents for the Colonies, and he shall notify any subsequent change of address. Treasurers and Auditors of Colonies whose accounts are subject to audit by the Director of Colonial Audit shall also send their addresses to the Colonial Audit Department.

85. An officer seeking an extension of leave must, in the absence of exceptional circumstances, apply to the Secretary of State in sufficient time to allow of reference to the Colony by mail.

86. Leave may be extended by the Secretary of State if the officer is required or permitted to remain in the United Kingdom on public grounds.

87. Officers may be required by the Secretary of State to discharge any duty or to go through any course of instruction which he may think necessary during their leave of absence, and will not be entitled to any additional remuneration in consideration of such employment. Allowances may, however, be granted to cover necessary out-of-pocket expenses, and extensions of leave may be granted in appropriate cases.

H. *Medical Examinations.*

88. Every person selected for appointment to the Colonial Service shall be required to present himself for examination to an approved medical practitioner with a view to its being ascertained whether he is physically fit for service. Unless otherwise provided in the offer of appointment, the fee for such examination shall be paid by the candidate. If the candidate is not finally passed as physically fit for service, his appointment shall not be proceeded with.

89. In the case of an officer proceeding on leave to the United Kingdom, a statement shall be furnished showing whether or not he is to be examined on arrival by one of the Consulting Physicians to the Colonial Office.

90. If an officer is required to be examined by one of the Consulting Physicians, the Governor shall transmit full information regarding the officer's health record during his last tour of service and a medical report of his state of health before proceeding on leave. The officer shall be furnished in writing with medical advice as to any precautions which he should take during the voyage and his subsequent leave.

91. Any officer who falls ill so as to require medical attendance while proceeding on leave of absence to the United Kingdom, or during such leave, and remains ill for a week, must report the fact to the Colonial Office, and he shall, if required, send at his own expense periodical reports from his medical attendant as long as he remains under medical care.

92. The Governor may at any time (and shall, if the officer so requests) call upon an officer to present himself for examination to an approved medical practitioner, or to a duly constituted medical board, with a view to its being ascertained whether the officer is physically capable of performing the duties of his appointment or to any appointment to which it may be proposed to transfer him.

93. An officer on leave of absence may be required, or at his own request may be permitted, by the Secretary of State to present himself for examination to an approved medical practitioner, with a view to obtaining a report as to the officer's physical fitness to return to his duties or to take up a fresh appointment.

94. In the case of examinations under either of the two preceding regulations,

(*a*) Any fees in respect of the examination shall, in the absence of any special regulations or arrangement to the contrary, be paid by the Government;

(*b*) The person or persons appointed to conduct the examination shall have discretion to call a specialist into consultation, and any fee due to the specialist for assistance in rendering a report to the Governor or to the Secretary of State shall be paid by the Government;

(*c*) The report of the examination shall be furnished to the Governor or to the Secretary of State as the case may be, and shall not be communicated to the officer concerned;

(*d*) The officer shall, however, be informed at the earliest possible date of the decision reached upon his case by the Governor or by the Secretary of State after consideration of the report; and if the officer is dissatisfied with that decision he shall be at liberty to make representations to this effect, in which event the Governor or the Secretary of State shall decide, at his discretion, whether any further medical evidence shall be called for.

I. *Transfer Arrangements.*

95.—(i) In these Regulations—

"children" means the children of an officer who are below the age of eighteen years, unmarried, and dependent upon him;

"free passage" means a passage provided at the expense of the transferring or receiving Colony as the case may be;

"passage" means a passage by a route approved as a normal route, the grade of accommodation being the grade which is prescribed for the officer when travelling on vacation leave or which would be provided for him when travelling on duty, and includes railway journeys necessarily undertaken in any process of transhipment;

"receiving Colony" means the Colony to which the officer is being transferred;

"transferring Colony" means the Colony from which the officer is being transferred;

"vacation leave" means leave with full salary as ordinarily granted in respect of resident service under the regulations applicable to the officer concerned in the transferring Colony.

(ii) Except in the case of passages granted under Regulation 96 (i) (*f*) and the last sentence of Regulation 97 (ii) no passage shall be granted under these Regulations for an officer's wife or children unless they accompany him or follow him within twelve months and are permanently giving up residence in the transferring Colony.

(iii) When an officer is transferred, the date of transfer shall be the date on which he begins to draw salary from the receiving Colony.

(iv) An officer who is transferred from one Colony to another is eligible for any vacation leave for which he may be qualified at the date of departure from the transferring Colony. If he is not qualified for vacation leave on account of his not having completed the prescribed minimum term of resident service, he shall, nevertheless, be deemed to have earned a period of leave with full salary from the transferring Colony bearing the same proportion to the period of vacation leave for which he would have been qualified if he had completed the prescribed minimum term of resident service as his actual period of resident service bears to the prescribed minimum term.

(v) An officer who is transferred from one Colony to another will normally be required to proceed to the receiving Colony by the cheapest and most direct route. If this route is not via the United Kingdom, he may nevertheless be permitted subject to the approval of the Secretary of State to proceed via the United Kingdom and to take some or all of any leave for which he may be eligible before his transfer takes effect.

96.—(i) An officer who is transferred from one Colony to another shall, if he proceeds via the United Kingdom, receive—

(*a*) such vacation leave as may be available under Regulation 95 (iv);

(*b*) leave with full salary at the expense of the transferring Colony for the period of the voyage to the United Kingdom if not included in (*a*);

(*c*) full salary at the expense of the receiving Colony for the period of the voyage from the United Kingdom;

(*d*) free passages for himself from the transferring Colony to the United Kingdom and from the United Kingdom to the receiving Colony;

(*e*) free passages not exceeding four in all for his wife and children from the transferring Colony to the United Kingdom;

(*f*) such privileges in respect of passages for his wife and children from the United Kingdom to the receiving Colony as may be prescribed for officers on first appointment to that Colony.

(ii) If the officer proceeds to the receiving Colony via the United Kingdom but his wife and/or his children proceed by some other route, he will be granted in respect of the passages for his wife and/or children—

(*a*) if the cheapest and most direct route is via the United Kingdom, a contribution from public funds towards the cost of the passages for his wife and/or each child not exceeding in each case the cost which would have been payable from public funds if they had proceeded from the transferring to the receiving Colony via the United Kingdom;

(*b*) if the cheapest and most direct route is not via the United Kingdom, free passages not exceeding four in all for his wife and/or children by the cheapest and most direct route.

(iii) If the vacation leave or leave with full salary granted to an officer on transfer who proceeds via the United Kingdom in respect of service in the transferring Colony is not exhausted by the date of his transfer, the balance, if it amounts to not less than seven days, may be deferred.

(iv) If the officer is not eligible under Regulation 95 (iv) for any leave with full salary from the transferring Colony on the conclusion of the voyage to the United Kingdom, or if it is not possible for him to leave the United Kingdom before the expiration of such leave, his leave will be extended with full salary from the transferring Colony from the date of arrival in the United Kingdom or from the date of expiration of the leave with full pay granted to him provided that he leaves the United Kingdom by the first reasonable opportunity. In such a case the receiving Colony will refund to the transferring Colony the salary paid in respect of such extension of leave.

97. The following conditions shall apply to an officer who is transferred from one Colony to another if he proceeds otherwise than via the United Kingdom:—

(i) He shall receive full salary from the receiving Colony for the period of the journey to that Colony, provided that he proceeds by the cheapest and most direct route.

Digitized by Google

(ii) Free passages shall be provided by the cheapest and most direct route from the transferring to the receiving Colony for himself, and for his wife and children up to a total of four passages besides his own. Alternatively, if his wife and/or his children proceed to the United Kingdom, free passages not exceeding four in all to the United Kingdom will be provided for them. In this event the question whether he should receive any assistance towards the cost of passages for them from the United Kingdom to the receiving Colony shall be governed by the regulations of that Colony.

(iii) The officer shall remain eligible for any vacation leave which he has earned in respect of his service in the transferring Colony, in accordance with Regulation 95 (iv), but such leave shall be deferred.

98. An officer who is transferred from one Colony to another shall also be granted a reasonable allowance for the transport of his heavy baggage (i.e., ordinary household effects other than furniture).

99. Leave deferred under these Regulations shall be granted to the officer at the first convenient opportunity by the Government of the receiving Colony with full salary at the rate which the officer is drawing at the time.

100. The expense falling upon public funds in respect of the passages of an officer, his wife and his children under these Regulations shall fall upon the receiving Colony, provided that if the officer and/or his wife proceeds via the United Kingdom the Government of the transferring Colony shall contribute towards the cost of the passages for him and/or his wife a sum bearing in each case the same proportion to the full cost of a passage to the United Kingdom as the number of months of resident service which the officer has completed during the tour preceding his transfer from the transferring Colony bears to the minimum term of resident service necessary to qualify him for vacation leave. The allowance for the transport of baggage as provided in Regulation 98 will be borne by the receiving Colony.

COLONIAL REGULATIONS.

PART II.—PUBLIC BUSINESS.

CHAPTER IV.—CONSTITUTIONS.

101. This part of the Regulations applies to the following Dependencies :—

I. Colonies possessing a form of self-Government within defined limits—namely, Ceylon and Malta—in so far as the Secretary of State has power to give directions.

II. Colonies in which the administration is carried on by public officers under the control of the Secretary of State for the Colonies, and Protectorates similarly controlled.

(i) Colonies possessing an elected House of Assembly and a nominated Legislative Council :—
Bahamas, Barbados, Bermuda.

(ii) Colonies possessing a Legislative Council consisting partly of elected, partly of nominated and partly of official members, of which the official members are not in the majority :—
British Guiana, Jamaica, Mauritius.

(iii) Colonies and Protectorates possessing a Legislative Council consisting partly of elected and/or nominated members and partly of official members, of which the official members are in the majority :—

Fiji,	Leewards Islands,	St. Vincent,
Grenada,	Nigeria (Colony & Protectorate),	Sierra Leone (Colony and Protectorate),
Gold Coast,	Northern Rhodesia,	Straits Settlements,
Kenya,	St. Lucia,	Trinidad and Tobago.

The Legislative Council of Kenya has power to legislate for the Kenya Protectorate.

The Legislative Council of Nigeria has power to legislate for the Northern Provinces only in financial matters. In other matters the power of legislation is vested in the Governor.

(iv) Colonies and Protectorates possessing a Legislative Council consisting partly of nominated and partly of official members :—

British Honduras,	Hong Kong,	Uganda Protectorate,
Falkland Islands,	Nyasaland Protectorate,	Zanzibar.
Gambia,	Seychelles,	

In the Councils of all the above, except British Honduras, the constitution provides for an official majority.

The Legislative Council of the Gambia has power to legislate for the Gambia Protectorate.

(v) Colonies and Protectorates without a Legislative Council :—

Ashanti,	Gibraltar,	St. Helena,
British Solomon Islands Protectorate,	Gilbert and Ellice Islands Colony	Somaliland.
Cyprus,	Northern Territories of the Gold Coast,	

In all these Colonies and Protectorates, except Bahamas, Barbados, Bermuda, British Honduras, Jamaica, and the Leeward Islands, the Crown has the power of legislating by Order in Council.

III. Territories in respect of which Mandates on behalf of the League of Nations have been accepted by His Majesty :—

(i) Palestine (excluding Trans-Jordan). The Palestine Order in Council, 1922, provides for a Legislative Council consisting partly of elected and partly of official members the constitution of which does not provide for an official majority. This part of the Order has been temporarily suspended by the Palestine (Amendment) Order in Council, 1923, and pending the actual establishment of the Legislative Council legislation is effected by the High Commissioner with the assistance of an Advisory Council consisting of officials.

(ii) Tanganyika Territory, in which the Legislative Council is partly nominated and partly official.

(iii) The Cameroons under British Mandate, divided into a Northern part in respect of which the Governor of Nigeria possesses powers of legislation, and a Southern part in respect of which the Governor and Legislative Council of Nigeria possess powers of legislation.

(iv) Togoland under British Mandate, in respect of which the Governor of the Gold Coast possesses powers of legislation.

In these Regulations the term "Colony" includes any territory to which the Regulations apply.

102. The officer appointed by the Crown to administer the Government is styled either :—
Governor and Commander-in-Chief,
Captain-General and Governor-in-Chief,
High Commissioner and Commander-in-Chief,
High Commissioner, or
Commissioner.

In these Regulations the term "Governor" includes all officers appointed to administer Governments, however styled.

103. The officer so appointed receives a Commission under the Royal Sign Manual and Signet, and his powers are conferred and his duties are defined by His Majesty's Commission and the Instructions with which he is furnished.

Digitized by Google

104. If through death or absence or otherwise he should become incapable of acting, the government devolves on such officer or person as may have been designated for that purpose in the Letters Patent or Order in Council constituting the office.

105. The Governor is the single and supreme authority responsible to, and representative of, His Majesty. He is, by virtue of his Commission and the Letters Patent or Order in Council constituting his office, entitled to the obedience, aid, and assistance of all military, air force, and civil officers; but although bearing the title of Captain-General or Commander-in-Chief, and although he may be a military or air force officer senior in rank to the officer commanding the troops or air force, he is not, except on special appointment from His Majesty, invested with the command of His Majesty's Regular Forces in the Colony. He is therefore not entitled to receive the allowances annexed to that command nor to take the immediate direction of any military or air operations, nor, except in cases of urgent necessity, to communicate officially with subordinate military or air force officers without the concurrence of the officer in command of the forces, to whom any such exceptional communication must be immediately notified.

106. The Governor, as the King's representative, will give the "word" (parole) in all places within his government.

107. The officer commanding the troops or air force will render to the Governor such returns as he may require relating to the strength and condition of the forces, or to the military or air defences of the Colony.

108. On the receipt of a notification that the Army and Air Force (Annual) Act has received the Royal Assent the officer commanding the troops or air force will communicate to the Governor the "General Orders" in which it may be promulgated.

109. Where several Colonies are comprised in one military or air force command, the officer in command of the whole may transfer forces from one Colony to another on the application of the Governor of the Colony to which the forces are to be sent. This application should when practicable contain the written expression of opinion of the military or air force officer, if any, there in command; but the officer in command must in all cases consult with the Governor of the Colony from which the forces are sent, and will incur a special responsibility if he sends them away without the Governor's consent, except under special instructions from His Majesty's Government.

110. For the purposes of Regulations 105 to 109, Colonies comprised under one government-in-chief are to be regarded as a single Colony.

111. The Governor has no authority over the movements of His Majesty's ships, and is not entitled to issue orders to officers of the Royal Navy. But, it being a general obligation on all His Majesty's civil and military officers to afford mutual assistance to each other in cases affecting the King's service, the Commander-in-Chief of a station or the senior officer present at a port is instructed in the King's Regulations for the Navy to pay due regard to such requisitions as he may receive from the Governor, having for their object the protection of His Majesty's possessions, the benefit of the trade of his subjects, or the general good of his service.

112. In urgent cases, when the requisitions may conflict with the instructions from the superior naval authority under which he is acting and when reference by telegraph or otherwise to such superior authority is impracticable, a naval officer is instructed to consider the relative importance and urgency of the required service as compared with his instructions, whether general or special; and he is to decide as in his judgment may seem best for His Majesty's service. In so doing he is instructed to bear in mind the grave responsibility that would rest on him if the circumstances were not such as fully to warrant the postponement of the instructions from his naval superior to the more pressing requisitions from the Governor.

113. In cases where high political considerations demand the decision of His Majesty's Government in respect of the action to be taken, the Governor should communicate his opinion that the presence of one of His Majesty's ships is necessary direct to the Secretary of State, instead of direct to the commanding officer of His Majesty's ship, unless the lives and property of British subjects are in such imminent peril as to demand immediate action.

CHAPTER V.—Ceremonies.

A. *Precedence.*

114. The precedence of officers in Colonies is determined by local enactments, by Royal Charters, by Instructions either under the Royal Sign Manual and Signet or through the Secretary of State, or by authoritative local usage.

115. In the absence of any special authority Governors will guide themselves by the following general table of Colonial precedence:—

The Governor or officer administering the Government.
The Lieutenant-Governor.
The officer in command of the Naval Forces on the Station in which the Colony is included if holding rank equivalent or superior to that of Rear-Admiral, the officer in command of the land forces in the Colony if holding rank equivalent or superior to that of Major-General, and the officer in command of the air forces in the Colony if holding rank equivalent or superior to that of Air Vice-Marshal, their own relative rank and precedence being determined by the King's Regulations on that subject.
The Chief Justice.
The officer in command of the Naval Forces on the Station in which the Colony is included if of the rank of Commodore, the officer in command of the land forces in the Colony if of the rank of Brigadier, and the officer in command of the air forces in the Colony if of the rank of Air Commodore, their own relative rank and precedence being determined by the King's Regulations on that subject.
The Colonial Secretary.
The Members of the Privy or Executive Council.
The officer in command of the naval forces on the Station in which the Colony is included if of the rank of Captain or Commander, the officer in command of the land forces in the Colony if of the rank of

Digitized by Google

Colonel or Lieutenant-Colonel, and the officer in command of the air forces in the Colony if of the rank of Group Captain or Wing-Commander, their own relative rank and precedence being determined by the King's Regulations on that subject.
The Puisne Judges.
The President of the Legislative Council.
The Members of the Legislative Council.
The Speaker of the House of Assembly.
The Members of the House of Assembly.
The Chief Commissioners, Government Agents, or Resident of Provinces.
The Solicitor-General.
The officer in command of the Naval Forces on the Station in which the Colony is included if below the rank of Commander, the officer in command of the land forces in the Colony if below the rank of Lieutenant-Colonel, and the officer in command of the air forces in the Colony if below the rank of Wing-Commander, their own relative rank and precedence being determined by the King's Regulations on that subject.

116. When two or more Colonies, Protectorates, or Mandated Territories are comprised within one naval, military, or air force command, then in the table in the preceding regulation:—

(i) the term "officer in command of the Naval Forces on the Station" shall include the senior officer of two or more of His Majesty's ships, or the senior officer of a Division of His Majesty's ships, present in the waters of the Colony and belonging to the Station in which the Colony is included, and shall also include a Resident Naval Officer at a naval base, who in the absence of the Commander-in-Chief of the Station in which the Colony is included is normally the senior officer at that base and is thus in command of any ships present;
(ii) the term "land forces in the Colony" shall include any permanent military force maintained by the Government in any Colony where there are no regular troops, but shall not include voluntary or auxiliary forces, and the term "officer in command of the land forces in the Colony" shall include the military officer holding the command in the Colony in the absence of the superior commanding officer; and
(iii) the term "officer in command of the air forces in the Colony" shall include the Air Force officer holding the command in the Colony in the absence of the superior commanding officer.

Any officer falling within the above definitions shall retain the precedence to which he is entitled under the preceding regulation, notwithstanding the presence in the Colony of the superior officer of the whole naval, military, or air force command. No naval, military, or air force officers other than those included in the general table of Colonial precedence, as above defined, have any place at all in that table, and the places accorded therein to the senior officers of the three services have no connexion, except as between those officers, with the regulations governing the precedence of officers of His Majesty's forces.

117. When a naval officer is a member of a Court of Inquiry into the circumstances attending the loss of a merchant ship but does not preside over the Court he should sit at the right hand of, and so next in seniority to, the President.

118. Members of the Royal Family take precedence in a Colony next after the Governor.

Except as provided in the following paragraph, British subjects who enjoy in the United Kingdom precedence by right of birth or by dignity conferred by the Crown do not lose such precedence while either temporarily or permanently residing in any Colony.

In the absence of special instructions from the King, and subject to any specific provision in the authorised local tables, the precedence within a Colony of all persons holding office or discharging official duties, whether naval, military, air force, or civil, within that Colony is determined solely by official rank, and the wives of such persons, even though they enjoy precedence in the United Kingdom by right of birth, take their place according to the precedence of their husbands.

Persons entitled to official precedence in the United Kingdom, in foreign countries, or in any particular part of His Majesty's dominions, are not entitled as of right to the same precedence elsewhere. In the absence of any special instructions from the King, the precedence of such persons will be determined by the Governor.

B. *Medals and Decorations.*

119. All medals and decorations emanate from the Sovereign and no decoration or medal may be issued without His Majesty's approval having been first obtained. The King's Regulations respecting Foreign Orders and Medals are inserted in Appendix 3.

C. *Salutes.*

120. The salutes to which Colonial officers are entitled are shown in the Table in Appendix 4.

121. Officers acting temporarily in any civil office are entitled during their temporary tenure to all the honours and salutes that may appertain to such office.

122. Governors are authorised to sanction such salutes as may have been customary, also such as they may deem right and proper at religious ceremonies, and further to cause the usual salutes to be fired at the opening and closing of the Legislature; but these salutes are in no cases to exceed nineteen guns.

123. A Colonial Governor absent from his Colony on leave, or otherwise than on a special mission expressly authorised by His Majesty's Government, is not entitled to receive any salute, or to fly any flag, as these privileges are only permitted when he is actually representing the Sovereign. A Governor so absent should decline all salutes or other official recognitions of a royal character from any foreign ship or troops.

D. *Flags.*

124. The Union Flag, without any badge, will be flown at Government House daily from sunrise to sunset.

125. The Union Flag, with the approved arms or badge of the Colony emblazoned in the centre thereof on a white ground surrounded by a green garland (as shown in the drawing in Appendix 5), will be used by a Governor or other officer administering a Government, when embarked in a boat or other vessel.

Digitized by Google

126. The British Blue Ensign with the arms or badge of the Colony emblazoned in the centre of the fly, i.e., in the centre of that part between the Union and the end of the flag, shall be worn at the stern and a blue pendant at the masthead by all armed vessels which belong to or are in the service of the Government of a Colony. (*See* drawing in Appendix 6.) Such vessels when not armed shall wear at the stern the blue ensign with the badge of the Colony emblazoned as aforesaid but shall not fly a pendant.

127. All other vessels registered as belonging to His Majesty's subjects in His Majesty's Colonies or Dependencies will fly the red ensign without any badge unless otherwise authorised by warrant from His Majesty or from the Admiralty. Colonial merchant vessels may carry distinguishing flags with the badge of the Colony thereon, in addition to the red ensign, provided that such flags do not infringe Section 73 (2) of the Merchant Shipping Act, 1894.

128. Whenever a requisition is received by any officer in command of one of His Majesty's ships for the embarkation or conveyance of a Governor or other officer administering a Government, the senior naval officer present may direct the flag which such official is entitled to use to be hoisted at the foretop-gallant masthead of the ship in which he is embarked; provided that after consultation with, and on requisition from, that official, the senior naval officer considers it for the benefit of the service about to be performed that such flag should be hoisted, and provided that it is only hoisted or carried within the limits of the Government.

129. If the senior officer considers it, in any circumstances, undesirable to hoist the flag, he will inform the Governor or other official concerned, of his reasons and will at once report the same to the Admiralty.

130. In the event of a Governor or officer administering the Government of a Colony being detached on a foreign mission in his official capacity, special instructions will be issued in each case as to the flag which should be carried by the man-of-war in which he may be embarked. In the absence of such instructions the senior naval officer present will exercise his discretion in consultation with the officer proceeding on the mission.

E. *Visits.*

131. Official visits between naval, military and air force officers and the Governor or Administrator of a Colony will be exchanged on the following occasions:—

(*a*) on the arrival of one or more of His Majesty's ships at a port at which the Governor or Administrator is present, between such officer and the senior officer in command of the squadron or ship;

(*b*) when any Flag Officer or Commodore flying his broad pendant first arrives at such a port since taking up his appointment, between that officer and the Governor or Administrator;

(*c*) on the first arrival of an officer in command of the land or of the air forces in the Colony at a place at which the Governor or Administrator is present, between the latter and the newly-arrived military or air force officer;

(*d*) on a Governor or Administrator newly appointed assuming office, between him and all Flag Officers and Commodores flying their broad pendants, and the officers in command of the land and of the air forces in the Colony.

These visits need not be exchanged more than once during the respective tenure of office of the King's Representative and the naval, military and air force officers mentioned above.

Governors and Administrators will wear uniform when paying official visits to naval, military and air force officers. On receiving official visits they will wear morning dress with the star of any Order which they may possess.

132. In exchanging visits,

(*a*) a Governor will always receive the first visit from the senior officer in command of the squadron or ship, and from the officers in command of the land and of the air forces in the Colony;

(*b*) an Administrator will pay the first visit to all Flag Officers or Commodores flying their broad pendants, and to an officer in command of the land or of the air forces in the Colony, if of rank equivalent or superior to that of Brigadier or Air Commodore, but will receive the first visit in all other cases.

133. Return visits must be paid within twenty-four hours.

(*a*) A Governor will return visits in person to all Flag Officers and Commodores flying their broad pendants, and to the officers in command of the land and of the air forces in the Colony, if of rank equivalent or superior to that of Brigadier or Air Commodore.

(*b*) An Administrator will do so in person to all naval Captains and to the officers in command of the land or of the air forces in the Colony if of the rank of Colonel or Group Captain.

(*c*) A Flag Officer or Commodore flying his broad pendant, and the officer in command of the land and of the air forces in the Colony will do so in person to an Administrator.

(*d*) In all other cases the return visit will be paid by an Aide-de-Camp or other officer deputed.

134. Should the Governor or Administrator find that from indisposition or pressure of important business he is unable to return or pay a visit in person he will depute his Aide-de-Camp, or some other officer, to do so. In like manner should a Flag Officer or Commodore flying his broad pendant, or an officer in command of the land or of the air forces in a Colony, from indisposition or pressing occupation be precluded from paying or returning a visit, he will depute his Flag Lieutenant or other officer not below that rank, or officer of equivalent rank in the land or air forces, to do so. In each case the officer failing to pay the required visit in person will report the circumstance, and the reasons which led to the omission, to the Department under which he is acting.

135. Officers acting temporarily in higher civil offices or commands will, in respect of these visits, be upon the same footing as if they were confirmed in such offices or commands.

136. The senior naval officer present will arrange, when necessary, to provide suitable boats to enable Governors or Administrators to pay official visits afloat on their notifying their wishes to that effect.

137. For the purpose of Regulations 131–136,

(*a*) the status of the British Resident, Zanzibar, and of the High Commissioners for the Malay States, Palestine and the Western Pacific, is that of a Governor;

Digitized by Google

(*b*) the term "Administrator" means the Administrator or Commissioner of a Colony or Dependency acting in subordination to a Governor;

(*c*) the term "land forces in the Colony" includes any permanent military forces maintained by the Government in any Colony where there are no regular troops but does not include voluntary or auxiliary forces, and the term "officer in command of the land forces in the Colony" includes a military officer holding the command in the Colony in the absence of the superior commanding officer; and

(*d*) the term "officer in command of the air forces in the Colony" includes the air force officer holding the command in the Colony in the absence of the superior commanding officer.

F. *Uniforms.*

138. Governors, unless at the time of their appointment they hold the rank of Admiral in the Royal Navy or of General in the Army or of Air Chief Marshal in the Royal Air Force (in which case they will during their tenure of office continue to wear their naval, military, or air force uniform), will wear the special uniform prescribed for them.

139. The class of the Civil Uniform which may be worn by officers in the Colonial Service under the rank of Governor is regulated in each Colony by the Uniform List for that Colony which has received His Majesty's approval.

140. No person is entitled without the consent of the King to wear the uniform attached to any office after he has ceased to hold that office. Such consent can only be obtained on the recommendation of the Governor made through the Secretary of State, and only in cases where an officer has actually worn the uniform during his tenure of the office to which it is attached. No retired officer will be allowed to wear any other uniform than that which was attached to his office during his tenure of it.

141. The wearing of uniform (or the alternative dress described in Regulation 143) is compulsory on all occasions duly prescribed. A white undress uniform has been approved for use in tropical countries in place of the ordinary (blue) civil uniform. Its adoption in any Colony is left to the discretion of the Governor. At outdoor functions in the day-time officers wearing the blue uniform are at liberty to wear with it the white helmet worn with the white undress uniform.

142. Only Governors may wear the first class of the white uniform, and they may wear with it, if they so desire, the cape forming part of the Governor's special uniform and a helmet bearing a plume similar to that on the cocked hat worn with the Governor's special uniform. On special occasions, however, such as the celebration of the Sovereign's Birthday or the opening or closing of the Legislature, Governors will wear the special uniform.

The other classes of white uniform will be worn by persons who are entitled, or have received permission, to wear the corresponding class of the ordinary civil uniform.

143. In lieu of civil uniform, officers may wear, on all occasions when uniform is prescribed, ordinary evening dress with black breeches (with three buttons and black buckles at the knee), black silk hose, and plain court shoes.

CHAPTER VI.—Correspondence.

A. *Colonial Office.*

144. Governors must address the Secretary of State for the Colonies in all correspondence with His Majesty's Government. Every such communication, therefore, to whatever public department in this country it may more immediately relate, must be addressed to the Secretary of State for the Colonies, with the exceptions mentioned in Regulations 162 to 176.

145. Despatches are classified and should be dealt with as follows:—

(1) *Numbered* despatches which the Governor is to lay before the Executive Council unless they are not of sufficient importance to require that they should be so laid, or unless there is some special reason to the contrary. In the latter case the Governor should report the matter to the Secretary of State in a confidential despatch. Numbered despatches may be published unless express directions are given to the contrary, but enclosures consisting of correspondence with a Government Department in the United Kingdom should not be published without prior reference to the Secretary of State. Despatches which for local purposes are to be treated temporarily as confidential should be marked "Reserved" after the number. *Circular* despatches and despatches from the Secretary of State marked "*Honours*" are to be treated in all respects as numbered despatches, unless also marked "Confidential" or "Secret."

(2) *Formal Correspondence*, such as schedules and records of telegrams, which should not be numbered.

(3) *Confidential* despatches which the Governor may, if he thinks fit, communicate under the obligation of confidence to the Executive Council or to any officer of His Majesty's Service. No confidential despatch, either to or from the Secretary of State, may be made public without his permission. The Secretary of State will only publish such despatches if he considers it desirable in the public interest, and will as a rule consult the Governor before so doing. Numbered despatches marked "Reserved" will be treated as confidential for a period of six months from the date of the despatch.

(4) *Secret* despatches, the contents of which the Governor is forbidden, without the express authority of the Secretary of State, to communicate to any person other than such members of His Majesty's Service as he considers it essential, in the public interest, to consult or inform.

146. Whenever it may be found necessary to address the Secretary of State confidentially the communication should be marked "Confidential." No reference to a confidential despatch should ever be made in a numbered despatch.

147. The Governor will cause the Secretary of State's despatches addressed to himself, as well as copies of his own addressed to the Secretary of State, whether confidential or not, to be deposited in the Secretariat or other recognised office of record in the Colony or in some other safe building belonging to the Government.

Digitized by Google

The Governor must satisfy himself that proper arrangements are made for the custody of secret despatches. Any secret despatch which he considers it necessary to retain in his own custody must be handed by him personally to his successor.

148. The Governor is forbidden to withdraw at any time any despatch or other public document.

149. The Governor's despatches should be numbered in succession, commencing annually with a fresh series. Each despatch should be confined as much as possible to a single subject. The paragraphs should be numbered and the enclosures noted in the margin.

150. Each enclosure should be separately numbered or marked and, if in any foreign language except French, should be accompanied by a translation. Connected correspondence should be placed in order of date. In the case of printed documents which can be procured without difficulty, six copies should be forwarded.

151. Despatches forwarded to the Secretary of State should be accompanied by a schedule in duplicate, giving their serial numbers, dates, and subjects, and also by a statement of the numbers and dates of all despatches which the Governor may have received from the Secretary of State since the preceding occasion. Separate schedules and statements should be furnished for confidential and secret despatches.

152. The Governor's telegraphic despatches, including those of a confidential or secret nature but excluding purely personal messages, should be numbered in succession commencing annually with a new series. Schedules of all telegrams despatched giving a brief indication of the subjects, should be transmitted by mail. Confidential and secret telegrams should be shown in separate schedules as in the case of despatches.

153. Every legislative Act must be accompanied by a statement from the Law Officer of the Crown to the effect that in his opinion the Governor's assent may or may not be properly given thereto, and also by a report from the Governor or from the Law Officer giving all requisite explanation respecting the object of the Act and any legal or political question which it may involve. If the Act is based on any Imperial or Colonial statute, or on a model draft ordinance, a reference to that statute or draft ordinance should be given; the reasons for any important deviations from the original should be stated; all deviations should be conspicuously shown (*e.g.*, in red ink) on a spare copy of the Act; and a comparative table should be given. Similar information should be furnished in the case of a legislative Act which re-enacts existing legislation with amendments, or in the case of legislation which is submitted in draft form for approval, and a comparative table should accompany all purely consolidating legislation.

154. The Secretary of State will not certify signatures other than those of the Governor or the Colonial Secretary. It is the duty of the Governor to cause it to be made known that the authentication of documents requiring to be certified can only be effected in this manner.

B. *Returns.*

155. All returns, reports, and local publications referred to in the Royal Instructions, or directed in instructions from the Secretary of State or in these Regulations must be punctually forwarded to the proper department. A list of the more important returns is given in Appendix 7.

156. The Governor will transmit to the Secretary of State twelve copies of all laws as soon as printed and six copies of annual volumes of laws. One copy of each law will be sent direct to each of the following :—

House of Lords.
House of Commons.
British Museum.
Bar Library, Royal Courts of Justice.
Law Society.
National Library of Scotland.
Library of Lincoln's Inn.
Library of the Inner Temple.
Library of the Middle Temple.
Library of Gray's Inn.
Library of the Royal Empire Society.
Signet Library, Edinburgh.
Library of the Judicial Department of the Privy Council.

In addition three copies of all laws should be sent direct, as soon as printed, to the Secretary, Board of Trade, and one copy to the Department of Overseas Trade. Copies of laws on special subjects should also be distributed as directed in Appendix 7 to Regulation 155.

157. The Governor will also transmit to the Secretary of State six copies of annual volumes of subsidiary legislation, such as Rules, Regulations, Orders in Council and Proclamations made under the authority of local laws. (See also Appendix 7 to Regulation 155.)

158. Ten copies of every new compilation or corrected edition of the Colonial Laws in volume form, and ten copies of separate prints of the laws contained in the volumes, will be forwarded to the Secretary of State. (For further distribution see Appendix 7 to Regulation 155.)

159. As soon as possible after the close of each year the Colonial Secretary will cause the annual Blue Book to be completed, and will certify the accuracy of its contents. The Governor will immediately transmit to the Secretary of State at least two copies if the book is prepared in manuscript or typescript and at least six copies if it is printed.

160. The Blue Book shall be accompanied by a report on the social and economic progress of the people of the Colony containing a brief account of the main activities of the Government and of the progress and

Digitized by Google

development of the Dependency during the preceding year, including in particular information as to the general tendency of trade. The report should contain a prefatory historical and geographical note, followed by information under the headings :—

Government,
Population,
Health,
Housing,
Production,
Commerce,
Wages and Cost of Living,
Education and Welfare Institutions,
Communications and Transport,
Banking, Currency, Weights and Measures,
Public Works,
Justice and Police,
Legislation,
Public Finance and Taxation.

Opinions, forecasts, controversial matter, details of merely local interest. and tabular statements other than those required for the elucidation of the text should be excluded.

161. Colonial Governments should arrange for the interchange of reports on subjects of common interest.

C. *Military and Air Forces.*

162. Governors who are actually in command of His Majesty's forces must separate their correspondence with the Secretary of State for the Colonies and the Secretaries of State for War and Air, as prescribed in the following Regulations 163 to 167.

163. All matters which relate to the discipline of the forces, or to the employment of them in any ordinary and established service, or to the relief of the forces after their time of local service shall have expired, or to the interior economy of His Majesty's land or air forces, will probably form the subject of correspondence with the Secretary of State for War or Air, as the case may be, exclusively.

164. In the event of actual hostilities with any foreign enemy, or of any extraordinary employment of the forces for the maintenance of the public peace, such occurrences must be reported both to the Secretary of State for War or Air, as the case may be, and to the Secretary of State for the Colonies.

165. In the event of its being thought necessary to make or to advise any military or air convention with the officer in command of the military or air forces of any foreign Power, a Governor commanding His Majesty's forces will at the same time report to the Secretary of State for the Colonies and to the Secretary of State for War or Air, as the case may be, the measures which he may have so taken, or those which he may wish to recommend for adoption.

166. In case it should be necessary, in order to render the Governor's military or air force reports clear, to make reference, in his correspondence with the Secretary of State for War or Air, as the case may be, to questions connected with his civil authority, he will in every such case at the same time bring such questions under the notice of the Secretary of State for the Colonies.

167. As any attempt to define the limits of a Governor's civil and military or air force correspondence may, from the nature of the case, be imperfect and may omit to provide for some unforeseen exigency, he will best meet the requirements of the Secretary of State for War or Air, as the case may be, and of the Secretary of State for the Colonies by conducting his civil correspondence exactly as he would conduct it if he possessed no military or air force command, and vice versa. The two functions of Governor and of Commander of the Forces, though for the time combined in the same person, should be regarded in this respect as entirely separate, and the reports made by the Governor in each capacity should be made precisely in the same manner as if that combination of functions did not exist.

168. When a Governor who is not actually in command of His Majesty's forces shall have occasion to report upon, or bring under the consideration of the Secretary of State for the Colonies, matters which involve military or air force as well as civil considerations, or which require the concurrence or decision of the Secretary of State for War or Air, he will, if there is an officer commanding military or air forces in the Colony, first communicate with that officer respecting the matters in question, and, having obtained that officer's opinion or observations thereon, he will transmit the same, with his own report, to the Secretary of State for the Colonies, and will, in every case, furnish the officer commanding with a copy of any report he may make involving military or air force considerations. If the officer commanding considers that these reports require the consideration of the Secretary of State for War or Air, he will forward the duplicates with his observations by the same mail which conveys the original report to the Secretary of State for the Colonies.

169. Similarly, under the King's Regulations, when the officer commanding the troops or air force in a Colony desires to bring to the notice of his military or air force superiors any matter which may involve civil as well as military or air force considerations, he will first communicate with the Governor with a view to obtaining his opinion thereon. He will transmit with his own report any opinion or observations he may thus obtain; and will in every case furnish the Governor with a copy of any reports he may make on subjects other than military or air force discipline and routine. If the Governor considers that these reports require the consideration of the Secretary of State for the Colonies, he will forward the duplicates with his observations by the same mail which conveys the original report to the Secretary of State for War or Air, as the case may be.

D. *Naval.*

170. The Governor or, in his absence, the Governor's Deputy, if one has been appointed, will write in his own name to any senior naval officer (that is to say, the senior officer then within his immediate reach), holding the rank of Flag Officer, Captain, or Commander, but will communicate with any senior officer of lower rank through his private secretary. The Governor, with the concurrence of the Commander-in-Chief of the Statio

Digitized by Google

in which the Colony is situate, may, however, authorize exceptions to this rule, as well as direct communication between other officers or Departments of the Government and particular naval authorities, concerning such matters (other than questions of policy or matters involving major expenditure) as seem to him appropriate.

171. Any notice or direction which the Governor may have occasion to convey to the commander of any foreign vessel in the waters of the Colony will be transmitted through the officers of the Colonial Government and not through the officers of His Majesty's Navy, whose intervention should not be applied for unless the directions forwarded through the ordinary channel should fail to produce their effect.

E. *Shipping.*

172. Under the Imperial Acts relating to merchant shipping certain duties in relation to merchant shipping are imposed on Colonial officers. Detailed instructions with regard to general duties in connection with merchant ships and seamen are contained in the "Instructions for the use of Officers in British Dominions and Possessions (Merchant Shipping and Seamen)" issued by the Board of Trade; and instructions on matters relating to the registry of ships are contained in the "Instructions to Registrars of British Ships" issued by the Commissioners of Customs with the approval of the Board of Trade.

173. At the end of each year the Colonial officer performing the duties of Registrar of Shipping will prepare and transmit to the Registrar-General of Shipping and Seamen, Tower Hill, London, E.1, an account made up to the 31st December showing:—

(*a*) the names and particulars of all ships on the register of the port on the previous 1st January, and

(*b*) the names and particulars of all ships registered at the port during the year or of those whose register has been closed. In the latter case, the cause of closing the register should be stated. At the end of the list an abstract should be given of the number and tonnage of vessels belonging to the port on 31st December. It is important that this list should be transmitted as early as possible in the month of January.

174. Notice of any new lighthouses, buoys, beacons, or radio beacons placed or erected on the shores of the Colony, and of any alterations in those already existing, will be forwarded as early as possible by the Governor to the Hydrographic Department of the Admiralty.

These notices should be given in the form shown in Appendix 8, which in the case of buoys or beacons should be amended as necessary.

175. Any information of interest to navigators, such as the information or discovery of new reefs, shoals, or currents, should also be forwarded as early as possible by the Governor to the Hydrographic Department of the Admiralty.

176. For the purposes of the Wreck Abstract which is presented annually to Parliament, particulars of every casualty to shipping on the shores of any British possession, or to any British shipping at sea concerning which information can be obtained, should be forwarded by the proper officer in the Colony to the Assistant Secretary, Mercantile Marine Department, Board of Trade, as soon as possible after the occurrence.

Forms for the purpose of making such returns will be supplied by the Board of Trade on application.

F. *Governments of Dominions, &c.*

177. Communications from a Colonial Government to the Governments of the Dominion of Canada, the Commonwealth of Australia, the Union of South Africa, and the Irish Free State should be addressed respectively to:—

The Secretary of State for External Affairs, Ottawa,
The Prime Minister of the Commonwealth of Australia, Canberra,
The Minister of External Affairs, Cape Town (when the Union Parliament is in session) or Pretoria (when the Union Parliament is in recess),
The Minister for External Affairs, Dublin,

and should be signed by the Governor.

178. Communications to the Government of New Zealand should be addressed to the Governor-General of New Zealand, Wellington, and should be signed by the Governor.

179. Communications to the Governments of Newfoundland, Southern Rhodesia, or one of the Australian States should be addressed to the Governor concerned and should be signed by the Governor.

179A. Communications from Colonial Governments desiring information on trade, etc., matters in the Dominion of Canada, the Commonwealth of Australia and the Union of South Africa may be addressed to the offices of the respective High Commissioners in those Dominions for His Majesty's Government in the United Kingdom. Such communications, if addressed direct to the High Commissioner, should be signed by the Governor, or if addressed to the Secretary (Political Secretary in the case of the High Commissioner in the Union of South Africa) should be signed by the Colonial Secretary or equivalent officer.

G. *Consular.*

180. Communications from the Governor to a British Consul-General will be signed by the Governor.

181. Communications from the Governor to a British Consul, or to a foreign Consul-General or Consul, should be signed by the Colonial Secretary.

182. Communications from a Consulate to the Governor should be signed by the senior officer of the Consulate.

H. *Individuals.*

183. Any person in a Colony who has any representations of a public or private nature to make to the Government should address them to the Governor through the Colonial Secretary. The duty of the Governor is to consider and act upon each such representation as public expediency or justice to the individual may appear to require, with the assistance in certain cases of his Executive Council; and if he doubts what steps to take thereupon, or if public advantage may appear to require it, he will refer the matter to the Secretary of State.

184. Any person in a Colony has the right to address the Secretary of State, if he thinks proper; in which case he must transmit his communication, unsealed and in *triplicate, to the Governor, requesting him to

*In quadruplicate in the case of the Leeward Islands.

Digitized by Google

forward it in due course to the Secretary of State. Every letter, memorial, or other document which may be received by the Secretary of State from a Colony otherwise than through the Governor will be referred back to the Governor for his report or returned to the sender.

185. The preceding rule requiring transmission of correspondence with the Secretary of State through the Governor is based on the strongest grounds of public convenience, in order that all communications may be duly verified, as well as reported on, before they reach the Secretary of State. It extends therefore to communications relating to public affairs as well as to the concerns of the writer, and to those from public bodies.

186. Petitions addressed to the King, or petitions addressed to the King in Council (other than petitions of appeal or petitions for special leave to appeal from decrees, orders, sentences or decisions of courts, judges, or judicial officers), and memorials to public officers or departments of His Majesty's Government in the United Kingdom, must be in like manner sent to the Governor for transmission to the Secretary of State.

187. The Governor shall transmit to the Secretary of State with all reasonable despatch every communication received by him in accordance with Regulations 184 to 186, accompanied by such report as its contents may appear to him to require.

CHAPTER VII.—FINANCE.

A. *Accounting Officers.*

188. The Treasurer, besides being the Chief Financial Adviser to the Governor, is the chief Accounting Officer of the Colonial Government, and subject to these Regulations and to such instructions as may with the authority of the Secretary of State be approved by the Governor, the financial and accounting operations of the Government are under his general management and his supervision, but it is also the duty of the Colonial Secretary, the Auditor, the heads of departments, the sub-accountants and all accounting officers to take care that these Regulations are duly observed.

The term sub-accountant means an officer who is entrusted with the receipt, custody, and disbursement of public money and who is required to keep one of the recognised cash books, the transactions in which are subsequently embodied in the final accounts rendered by the Treasurer.

189. It is the duty of the Treasurer in his capacity as Chief Accounting Officer:—

(i) To see that the proper system of account is established in every department of the Colonial Government;

(ii) To exercise supervision over the receipts of public revenue and as far as possible to secure its punctual collection;

(iii) To bring promptly to account, under the proper heads and items, all money, whether revenue or other receipts, paid into the Treasury or accounted for to him;

(iv) To see that proper provision is made for the safe keeping of all public money and stamps;

(v) To exercise supervision over all the officers of his department entrusted with the receipt or expenditure of public money, and over the sub-accountants, and to take precautions, by the maintenance of efficient checks, against the occurrence of fraud, embezzlement, or carelessness;

(vi) To supervise the expenditure and other disbursements of the Government; to take care that no payment is made which is not covered by proper authority, expressed or referred to on the voucher relating to it: and, in case of any apparent extravagance or of any apparent defect in the provision for a charge owing to the exhaustion or absence of a vote, to call the attention of the Colonial Secretary in writing to the matter;

(vii) Promptly to charge in his accounts under the proper heads and items all disbursements of the Government, whether expenditure or other payments.

(viii) To render the accounts for audit and to prepare the Financial Statements and Returns.

190. The Treasurer will from time to time cause surprise inspections to be made of the accounts of his sub-accountants. He will report to the Colonial Secretary any material irregularity connected with the public accounts that may have been brought to his notice.

191. Heads of departments, sub-accountants and all accounting officers are personally and pecuniarily responsibile for the due performance of the financial duties of their departments or offices, for the proper collection and custody of all public money receivable by them, and for any inaccuracies in the accounts rendered by them or under their authority.

The responsibility of the Auditor for checking and reporting any shortcomings in connection with the public accounts or finances does not absolve any officer from his responsibility for complying, or securing compliance, with instructions within the scope of his own authority. No officer will be relieved from any portion of his responsibility should he depute to his subordinates the performance of duties which he should have performed himself.

192. The Auditor and his deputies are at all times entitled to have access to all books, records, or returns relating to accounts, and all accounting officers will give them every facility for inspecting such documents.

193. It is the duty of all accounting officers promptly to reply to any queries addressed to them by the Auditor, giving fully the particulars or information desired.

B. *The Estimates.*

194. Annual Estimates of the revenue and expenditure of a Colony will be submitted by the Colonial Secretary to the Governor at such a date as will admit of their consideration by the Legislature, their transmission to the Secretary of State, and the receipt of his reply by post, before the beginning of the year to which the estimates relate. Where local circumstances render this impossible, the Estimates should be transmitted so as to reach the Secretary of State as soon as possible, and in any case before the beginning of the year.

Digitized by Google

195. The Estimates will show against each item of revenue or expenditure the amount estimated for the coming year and the amount of the approved Estimate of the current year. Where the expenditure of a department is provided partly by annual votes and partly by a civil list or other special law, the amount provided by law will appear in an inner column, the total of which should be added to that of the items not so provided. The Estimates will thus show under each head every item which is expected to come in course of payment during the year of estimate, including not only those which are submitted to the Legislature for discussion and appropriation but also those which, being already provided, are included in the Estimates for information only. The law authorising the provided expenditure should be named in each case.

196. The Abstracts preceding the body of the Estimates will show the totals of all the heads in the Estimates and will have four columns, one for the actual revenue or expenditure of the last completed year, one for the approved Estimates of the current year, one for revised estimates of the same, and one for the estimated revenue or expenditure of the coming year.

197. The Estimates of Revenue should, except in the case of Government railways, include the gross receipts of the Colonial Government, except repayments of advances, proceeds of loans appropriated by law for special works, receipts from sales of investments, deposits, and remittances. They should include all fees, dues, fines, and rents payable into the Colonial Treasury, any amounts payable to officers in respect of such receipts being provided for in the Estimates of Expenditure under the sub-divisions entitled "Personal Emoluments."

198. The revenue should be arranged under comprehensive heads. It falls generally into four broad classes:

(1) Duties, taxes, licences, &c.;
(2) Receipts for, or in aid of, specific Government services—such as fees or hospital receipts;
(3) Receipts on account of undertakings of a commercial character; and
(4) Revenue from Government property, such as land, houses, and investments.

It will be convenient to have several heads for each of these classes, but care should be taken that no head comprises items coming under different classes, and that revenue derived from taxation is easily distinguishable from revenue not so derived.

199. Stamp duties should not form a separate head. If the same description of stamp is sold for different revenue purposes, and there is thus no means of distinguishing the use to which the stamp is put, the total receipts from such stamps should be provided for under a separate sub-head "Stamps sold for various revenue purposes" under the head for licences, or that for payments for specific services, according to the nature of the bulk of the receipts.

200. The proceeds of the sale of Government lands and premiums on leases should be kept distinct in the Estimates from the total revenue from other sources.

201. In Colonies where a deficit is to be met by a grant or loan from Imperial funds, the estimate of the amount to be so received should appear under a separate head of revenue following and distinct from the total revenue receipts from other sources; and in the case of such loans any anticipated repayments should similarly appear under a separate head of expenditure.

202. If the Colony is receiving a grant or loan from Imperial funds to meet certain specific expenditure, the estimate of the grant or loan should, in like manner, be shown under a distinct head of revenue, and the expenditure in respect of which it is made should be shown also, if possible, under a separate head of expenditure below the total ordinary expenditure of the Colony.

203. There should be no head for "Arrears of Revenue." Interest received on arrears of revenue should be brought to account under the same head as the revenue of which the arrears accrued.

204. The Estimates of Expenditure should be framed so as to show as nearly as possible the amounts which it is expected will actually be spent during the year. No deductions will, however, be made from the total of the Estimates, or of any head, on account of probable savings on salaries owing to the absence of officers on leave, or on account of any general presumption that the expenditure will be kept within the estimate.

205. Each head of department is responsible that all services that can be reasonable foreseen are included in his departmental estimate and that no unauthorised increase of salary is inserted therein.

206. Under the heading for each department there will be two sub-divisions—"Personal Emoluments" and "Other Charges."

207. Subject to the provisions of Regulation 235 all items whatsoever of personal emoluments to public officers will appear under "Personal Emoluments", which will, therefore, include (besides salaries) personal, duty, entertainment, and house allowances, allowances in lieu of quarters, fuel, and light, clothing allowances paid in money, fees and percentages or commissions. Each allowance will be described in a separate line, and not included with the salary, but the whole of the personal emoluments of each officer in respect of each department will be shown together. Pensionable emoluments should be distinguished from those not pensionable by a star or other indication.

208. Where salaries are increased by regular increments, the minimum and maximum salaries, with the increment, should be stated within brackets, the amount payable within the year being inserted in the estimate.

209. Where an officer receives emoluments under more than one head the fact will be indicated by cross references or explanatory footnotes. Any pension or compensation allowance, or other emolument in respect of public service, including the provision of an official residence, will be similarly shown.

210. Allowances made in reimbursement of public expenses, such as transport allowances, travelling allowances, and allowances for office or clerical expenses, will be placed under "Other Charges."

211. The sub-division "Other Charges" will include all services other than personal emoluments which can be properly apportioned to the particular department.

212. Every head of expenditure will include, as far as possible, all the items relating to the particular department, so as to show clearly the total estimated cost of that department during the year. Provision should be

Digitized by Google

made, under the heads concerned, for the charges on account of services rendered by other Government departments. Where services of a general character cannot be divided and charged to different departments, they will be provided for in separate sub-heads under the head "Miscellaneous."

213. Each head of expenditure will be divided into such sub-heads as may be decided in the case of each Colony. The total personal emoluments of each department will make up one sub-head and small items under "Other Charges" not of a distinctive character may be grouped under a sub-head of "Incidental Expenses." Items not so grouped will be shown as separate sub-heads.

214. No items of receipt or expenditure will be included under the head "Miscellaneous" which can appropriately be placed under any other head, and, if necessary, new sub-heads will be opened for any such items.

215. No provision is to be made for "Unforeseen Expenditure"; any item for "Contingencies" or for "Miscellaneous" under the head "Miscellaneous" should be strictly confined to petty and casual charges which are foreseen but which are too unimportant to be provided for separately.

216. New heads or sub-heads should be opened for items of receipt or expenditure not properly falling within any of those already appearing in the Estimates

217. The total estimated expenditure of the year should not in ordinary circumstances be allowed to exceed the total estimated revenue. In the case of an anticipated excess a footnote should explain in what manner it is to be met, and in the Appropriation Law the expenditure for the year should be made a charge on the revenue of the year "and other funds of the Colony."

218. The estimates of the charges on account of public debt should be arranged in the chronological order of the loans provided for.

219. There will be two heads for public works in addition to that for the establishment of the Public Works Department. All annually recurrent services will be placed under the first of these heads: and other works under the second. There will thus be three heads of expenditure administered by the Public Works Department, viz.:—"Public Works Department", "Public Works Annually Recurrent", and "Public Works Extraordinary."

220. In the case of works not annually recurrent which will extend over more than one year, there should be shown not only the estimate for the year, but also the original estimate for the whole work, the revised estimate (if any), the total amount actually expended so far as accounts are complete, and the total amount likely to have been expended on the work up to the beginning of the year of estimate.

221. The Estimates should be accompanied by explanations respecting every item of an unusual nature therein comprised and of the difference under each item between the proposed expenditure or anticipated revenue, and the approved estimate for the preceding year, as shown in the parallel columns. Twelve copies of the Estimates should be sent to the Secretary of State or, where they are not printed, two copies at least.

222. The Estimates should be accompanied by a statement of the assets and liabilities of the Colony at the close of the last completed year of account, and a statement, partly estimated, of the assets and liabilities at the beginning of the year to which the Estimates relate.

223. The Appropriation Law will not include sums specifically provided by law, but only such sums as require to be voted by the Legislature for the service of the year, and will appropriate these sums under each head of expenditure in the Estimates. In cases of expenditure in excess of these sums, only the net excess on each head will require supplementary appropriation, but Appropriation Accounts, showing the excesses and savings on each sub-head of the Estimates, should be laid before the Legislature and the Secretary of State.

224. The Governor will not propose to the Legislature the execution of any important public work for which he has not obtained the previous sanction of the Secretary of State.

225. Special cases of pressing emergency may arise in which it is impossible to obtain the previous requisite sanction of the Secretary of State for a proposed work. In such a case the Governor will submit his proposals to the Legislature, and, having obtained their approval, will seek the sanction of the Secretary of State at the earliest opportunity.

C. *Receipts.*

226. All receipt entries in the accounts must be vouched for on the form prescribed by law or regulation.

227. Except where otherwise provided and in cases where receipts are not required (such as Customs duties or sale of stamps), accounting officers must give receipts, from books of counterfoil forms bearing printed consecutive numbers, for every sum paid to them. Where such a check can be obtained the counterfoils should be signed by the payers and, in cases in which revenue is payable by adhesive stamps, the stamp must be effectually cancelled. Numbered counterfoil receipt books will be supplied by the Treasurer, who will be responsible for their custody and to whom the counterfoils will be returned when the receipt forms are exhausted or as may be otherwise directed. Counterfoil books should not be cut or divided.

228. All licences, permits, certificates, passage orders, and other documents for which payments are received will be issued from counterfoil books printed with consecutive numbers.

229. In cases where court fees, licences, and similar receipts are collected by adhesive stamps the stamps will be affixed by the persons paying in such revenue and effectually cancelled by the proper officer. The cancellation should whenever possible be performed by an officer other than the officer employed to sell the stamps.

230. All regular collectors of revenue, other than the Treasurer and the sub-accountants, who receive any duties, taxes, licences, fees, rents, or other public money whether forming a portion of the Colonial revenue or not, are required to pay the whole amount of such money, daily or at the earliest possible opportunity, either into the bank to the credit of the Treasurer, or into the Treasury, or to a sub-accountant, obtaining a receipt for the money so paid in.

Digitized by Google

231. Whenever a public officer not being a regular collector of revenue comes into receipt of public money, he will pay it to the Treasurer or to a sub-accountant without delay, obtaining a receipt for the amount so paid in.

232. In all cases the gross amounts received must be paid into, or accounted for to, the Treasury. All charges upon the revenue received will require authority, and should appear as expenditure, supported by proper vouchers.

233. Between the time of receipt and the time of payment into the bank or Treasury, or to a sub-accountant, no public money shall be made use of in any way whatsoever; nor will any officer advance, lend, or exchange any sum for which he is answerable to the Government.

234. Bills of exchange, cheques, or promissory notes will not be received as revenue, except under such conditions as, having regard to local circumstances, the Governor may prescribe by standing order. When so authorised, accounting officers, on the receipt of any such negotiable instrument, will enter the amount thereof in their cash books as revenue collected, taking credit for the same when handed over to the Treasurer.

235. Where fees are received from the public by an officer in his public capacity they need not be paid into or accounted for to the Treasury if they are wholly appropriated to the remuneration of such officer and are not a pensionable emolument, but the officer receiving them will be required to make a monthly report of their amount for record in the Treasury. In all other cases fees received from the public by an officer in his public capacity, which are appropriated, either wholly or in part, to his remuneration, will be dealt with in the same manner as other receipts of public money and the total amount paid into or accounted for to the Treasury. The amount to which the officer is entitled will then be issued to him, on a proper voucher, by the Treasurer. In all cases where any portion of such fees is retained by the Government, or where the fees are a pensionable emolument, the total sum collected will be brought to account as revenue, the amount paid to the officer being charged as expenditure against the proper head, under "Personal Emoluments." The estimated amounts receivable as fees by any officer should be shown in footnotes to the annual Estimates.

236. Payments to the Treasury or to sub-accountants by collectors of revenue will be supported in each case by such subsidiary detailed schedules or abstracts as the Treasurer may prescribe.

237. If at any time the public revenue sustains a loss by reason of the neglect or fault of any officer, he will be liable to be surcharged with the amount.

238. The Treasurer will report to the Colonial Secretary any failure on the part of an accounting officer to receive and duly account for any sums receivable by him. He will also report any case in which he may have reason to think that the revenue is falling unduly into arrear. The Auditor will similarly report in like circumstances.

239. All officers charged with the supervision of the collection of revenue will furnish to the Treasurer for transmission to the Auditor periodical returns showing the state of the arrears in the collection of taxes or any other revenue receivable by them. In the event of there being no such arrears a nil return will be furnished.

240. In the case of irrecoverable arrears of revenue, except where other authority is by law established, the authority of the Secretary of State is required for any general cancellation of claims prior to a given date.

241. In cases of arrears of revenue due by particular individuals, in which the necessity or justification for the abandonment or remission of such arrears depends upon local circumstances, and no question is involved either of large amount, of important or novel principle, or of the negligence of an officer, the Colonial Secretary or other officer appointed by law to deal with such claims will from time to time furnish to the Treasurer for transmission to the Auditor a list of cases in which it has been decided to abandon or remit such arrears, with the reason for so doing entered against each case. Unless the Auditor sees cause to challenge the decision in any case, this list will be accepted as a valid discharge for the accounting officer in respect of the non-collection of any amount specified thereon.

D. *Payments.*

242. All disbursements of public money in the Colony will be made by the Treasurer under authority from the Governor, either personally or by officers acting, by instruction, as his sub-accountants. The Treasurer and all accounting officers will be held personally and pecuniarily responsible for inaccuracies in the rendering of accounts and for any payments made, except as prescribed by these Regulations. Disbursements in England will be made by the Crown Agents, whose accounts will, as soon as received, be incorporated by the Treasurer in his monthly accounts.

243. Where a bank account is kept, all payments of £2 or more (or the equivalent in local currency) will be made by cheques signed by the Treasurer or by the authorised sub-accountant, and countersigned by such other departmental officer as may be appointed by the Governor to do so. The Governor will, if he sees fit, appoint a lower or higher limit. The counterfoils of all cheques will be preserved for reference.

244. Any officer allowing or directing any disbursement without proper authority will be held personally responsible for the amount.

245. The complete authority requisite for expenditure out of public funds consists of a vote or enactment of the Legislature and the sanction of the Secretary of State. The authority thus conveyed is addressed solely to the Governor, and the Treasurer is strictly prohibited from making any payments, or accepting any charge on his accounts (notwithstanding that the services to which they relate may be duly provided for in the estimates or Appropriation Law), unless authorised so to do by—

(i) General Warrant, under the hand of the Governor or of the Colonial Secretary signing "by command";
(ii) Requisition approved by the Governor;
(iii) Special Warrant;
(vi) The Secretary of State's approval of expenditure incurred by the Crown Agents in England.

Digitized by Google

246. Before the commencement of each year a complete Schedule will be prepared by the Treasurer of the personal emoluments and other public services, provided for in the Estimates for the year, over which the Government does not desire to reserve special control. This Schedule will be annexed to the General Warrant of the Governor, authorising the payment by the Treasurer monthly, or at such periods as may be necessary during the year, of the services therein enumerated. This General Warrant will be prepared and signed in triplicate and copies filed in the Colonial Secretary's Office, the Treasury, and the Audit office.

247. When an officer considers it necessary to incur expenditure on a service for which there is provision in the Estimates but the expenditure on which has not been authorised in the General Warrant, he will, as soon as possible and before incurring the expenditure, submit a Requisition in triplicate stating the whole extent and estimated cost of the service required, and giving all details as far as he is able. In the case of any public works, plans, specifications, tenders, and estimates, as far as practicable, should accompany the Requisition.

248. The head of the department responsible for the expenditure will examine the Requisition, fill in from his departmental vote account the statement of expenditure already incurred or authorised, countersign it, and forward it to the Treasurer for submission to the Governor.

249. It is the duty of the Treasurer on receipt of a Requisition to satisfy himself that the expenditure for which authority is required is sufficiently provided for in the Estimates, and that it is proposed to be charged against the proper head and sub-head; that the particulars given in the Requisition are accurate and sufficient for the guidance of the Governor in considering the propriety of the expenditure, and that all regulations which may affect the duty of the officer concerned in respect of the Requisition have been complied with. He will obtain from the officer any information that may be necessary for the assistance of the Governor, and will return the Requisition for amendment, if incomplete or indefinite. In forwarding the Requisition, the Treasurer will advise as to the funds available for meeting the proposed expenditure, having due regard to the whole of the services which appear likely to be chargeable against the sub-head in the course of the year. The three copies of the Requisition, with the Governor's allowance or disallowance noted thereon, will be returned to the Treasurer. If approved, it will be sufficient authority for the expenditure to be incurred, and one copy will be retained by the Treasurer and another sent to the Audit Office. The third copy will be sent to the head of the department from which it was received for record and reference.

250. Should the expenditure authorised upon any Requisition be found insufficient, the head of the department requiring authority for further expenditure will, so soon as he foresees the necessity therefore, forward to the Treasurer a supplementary Requisition for such further expenditure, drawn up in the same form as the original Requisition and accompanied by a memorandum explaining the necessity for the excess.

251. In any exceptional case where it is manifestly for the benefit of the public service that expenditure should be immediately incurred, and time does not permit of authority being obtained in the usual way, an officer may, on his own responsibility, incur the expenditure; but he will at once forward a Requisition as above provided with a covering memorandum explaining the reasons which induced him to depart from the ordinary course. In every such case he will be held personally liable for the expenditure in the event of the payment not being finally approved; and any items which may appear unnecessary or extravagant will be disallowed and surcharged against him.

252. All payment entries in the accounts must be vouched for on the prescribed form.

253. Vouchers for all salaries, allowances, and other services included in the General Warrant will be delivered duly certified by the heads of departments to the Treasurer, or, in the out-stations, to the nearest sub-accountant, three clear days at least before the last day of public business in each month. Any vouchers delivered after the date prescribed will be liable to be held over until the pay-day of the following month. In the last month of each financial year the vouchers for salaries, allowances, and pensions should be delivered not later than the 26th of that month. Officers whose salaries do not exceed £100 a year may be paid weekly or half-monthly.

254. All travelling and transport allowances are granted in respect of expenditure actually incurred on the public service, no part being intended as a personal emolument to any officer.

255. In the event of any unauthorised payment being made in consequence of an incorrect certificate on a voucher, the certifying officer will be held responsible for the same, and the amount will be surcharged against him.

256. A Special Warrant will be required for all payments on account of services not included in the Estimates, even though provided by law, and for payments in excess of the amounts provided in the Estimates. A Special Warrant will also be necessary if any addition is made to the rates of personal emoluments or to the number of posts authorised in the Estimates even though the expenditure on the sub-head will not be thereby increased. Special Warrants shall be prepared and signed in triplicate, as in the case of the General Warrant, and copies filed in the same offices. The foregoing procedure does not apply to expenditure incurred by the Crown Agents in England on instructions received from the Secretary of State.

257. Separate vouchers will, as far as possible, be used for separate sub-heads and for the payment of different services, especially in cases where each service has been separately authorised.

258. All vouchers will contain full particulars of each service, such as dates, numbers, quantities, distances and rates, so as to enable them to be checked without reference to any other document.

259. The signature of the head of a department certifies to the accuracy of every detail on the voucher. He will therefore be held responsible that the services specified have been duly performed, that the prices charged are either according to contracts or approved scales, or fair and reasonable according to current local rates, that authority has been obtained as quoted, that the computations and castings have been verified and are arithmetically correct, that the persons named in the vouchers are those entitled to receive payment, and that stores purchased have been duly taken on charge.

Digitized by Google

260. When supplies are furnished or work done under agreement or contract, there will be attached to the voucher a certificate that the payments are in accordance with the terms of the contract or agreement, that, as regards supplies, the articles have been received, and, in the case of work, that it has been properly done. In the case of a payment on account no more will be claimed than the cost of the work certified to have been performed. When a deduction is made from the amount payable on a contract in respect of a penalty or fine, the net sum only will be paid.

261. In cases where public offices present claims for small payments made by them, sub-vouchers, in the shape of actual receipts, must be produced whenever practicable. When sub-vouchers cannot be obtained the officer will certify that the charges have been incurred solely upon the public service and actually paid by him.

262. Whenever possible payment of wages will be made by an officer of the Treasury and witnessed by another public officer or other responsible person approved by the Treasurer, who will sign the sheets as witness to the payments having been made to the persons entitled to the money. Money should not be paid to unofficial persons for distribution in wages.

263. The Treasurer, before paying any claim, will satisfy himself that:—

(i) The payment will not cause an excess on the amount provided in the Estimates or in special warrants, on the sub-head to which it is chargeable;

(ii) The expenditure has been authorised by Warrant or approved Requisition, as quoted on the voucher;

(iii) The information furnished on the voucher is correct in all particulars and that the certificate is signed by the proper officer;

(iv) All proper deductions from salaries or pensions on account of contributions, repayment of advances, remittances, or other liabilities have been duly made.

Sub-accountants making payments for the Treasurer will similarly satisfy themselves in regard to these points so far as they are in a position to do so.

264. Payment will be made only to the persons named in the vouchers, or their legal representatives, from whom signed receipts (duly stamped, where necessary) must be taken at the time of payment. Where the recipient is unable to write, he will make his mark in acknowledgment of receipt, the act being witnessed and the receipt countersigned by some person other than the paying officer. Where this is impracticable, as occasionally in the case of payments to a number of labourers, the paying officer will certify that the payments have been actually made, such certificate being countersigned by some person other than the paying officer who was present at the time of payment. When payments are made to persons other than those named in the vouchers or to the agents of officers absent on leave, the authorities under which they are made (such as powers of attorney, and letters of administration) shall be registered in the Treasury and notified on the vouchers, except where the law permits of a declaration being substituted for letters of administration in cases of succession to small estates. In the case of an officer absent on leave, the amount of whose salary is paid to his agent, a certificate that the officer was alive on the date to which salary is claimed must be furnished to the Treasurer and attached to the payment voucher. When an alteration occurs in the amount expressed to be received, the initials of the recipient should be written against such alteration. A receipt given by an officer for money paid to him by way of imprest, or in adjustment of an account where he derives no personal benefit therefrom is not, unless specially required by local law, chargeable with stamp duty. Payments of subsistence and other allowances in reimbursement of expenses actually incurred are likewise exempt.

E. *Classification and Control.*

265.—(1) When the annual Estimates have been passed by the Legislature and approved by the Secretary of State, and the Appropriation Law allowed by His Majesty, the expenditure of the year must be held to be definitely limited and arranged. Should any further disbursements on account of the service of that year be required, which could not have been foreseen, cannot be postponed without detriment to the public service, and cannot appropriately be charged to an existing sub-head of the Estimates or will cause any excess thereon, approval by the Legislature and the Secretary of State of the necessary additional provision for such disbursements will be sought in the following manner:—

(*a*) Where the provision for the supplementary expenditure is not in excess of an amount fixed by the Secretary of State in the case of the individual Colony, and the supplementary expenditure is not of such a nature as to raise some question of principle or involve a breach of some regulation or some previous ruling by the Secretary of State, the Governor may on his personal responsibility give his sanction to such supplementary expenditure being incurred, subject to the inclusion of the amount of such provision in a Schedule of additional provision for the quarter (or such shorter period as may be adopted in the case of the individual Colony) in which such sanction was given.

(*b*) In all other cases, the Governor will, at the earliest possible opportunity and if practicable before any expenditure is incurred, submit an estimate of the supplementary expenditure separately to the Legislature and the Secretary of State and obtain their approval of it. The amount of the provision so approved will be included in the next Schedule of the year.

(*c*) The Schedule for the quarter (or other shorter period) will thus include under heads and sub-heads all provision for expenditure in addition to that provided for in the Estimates or in previous Schedules for the year, which has during that period been approved by the Legislature and the Secretary of State or has been authorised by the Governor in anticipation of the approval of the Legislature and the Secretary of State. It will be despatched to the Secretary of State not later than one month after the close of the period to which it relates, but in any case before the end of the financial year. In the event of the Legislature not having dealt with it when it is despatched to the Secretary of State, the resolution of the Legislature upon it will be reported to the Secretary of State subsequently as soon as possible.

(2) If after the close of the financial year it is found that supplementary expenditure has occurred during that year which has not been included in any Schedule, and the Governor considers that such expenditure

Digitized by Google

should be admitted as a charge to public funds, he will as soon as possible submit a statement of such expenditure to the Legislature and the Secretary of State for their approval of its being so charged.

266. If the supplementary expenditure causes an excess on a head, such excess should ultimately be covered by a supplementary Appropriation Law.

267. The Governor is not authorised to make any addition to the fixed establishment of the Colony nor to alter the appropriation of the established salaries of any public department, either as regards the number of appointments, or the rates of salary and emoluments, without the previous sanction of the Secretary of State.

268. The Estimates form the basis of the accounts of the year to which they relate, and the classification and sub-division of the accounts of revenue and expenditure must accord with the detail of the Estimates.

269. It is the duty of a head of a department to watch the expenditure of his department with reference to the amounts provided in the Estimates, and to report at once through the Treasurer to the Colonial Secretary whenever it may appear that the amounts provided will prove insufficient for the service of the year. Whenever the Treasurer makes any charge against a vote by transfer from the Crown Agents' account or the account of another department, he will immediately notify the head of the department responsible for the vote, who will post his vote account accordingly.

270. If charges are made against a head which, although apparently chargeable to that head, do not clearly come within the meaning of any of the sub-heads, they should be brought by the Treasurer under the notice of the head of the department concerned and of the Colonial Secretary, with a view to the insertion of an additional sub-head in the accounts.

271. The authority for expenditure conveyed by an Appropriation Law lapses at the end of the financial year to which it relates, and if further expenditure is necessary for the completion of any service it must be provided for in the Estimates, or in a Schedule of additional provision, of the year in which the sum will actually be expended. The authority conveyed by warrant and requisitions similarly lapses on the last day of the financial year in which they are issued and no payments may be made after that date, except under the authority of Warrants or Requisitions issued for the service of the ensuing financial year.

272. The date of receipt or payment governs the date of the record of the transaction in the accounts. In no circumstances may payments be made before they are due for the purpose of utilising an anticipated saving on a sub-head, nor may the unexpended portion of any sub-head be drawn from the Treasury for the purpose of setting it in reserve to meet impending payments, or to be carried to a deposit or suspense account. On the other hand, expenditure properly chargeable to the account of a given year must, as far as possible, be met within the year, and must not be deferred for the purpose of avoiding an excess on the amount provided in the Estimates.

273. Where any officer, department, or board administers on behalf of the Government any commercial or industrial enterprise, or any service involving receipts and payments, the whole of such receipts and payments shall, excepting where otherwise authorised by the Governor with the approval of the Secretary of State, be accounted for to the Treasurer, and included in his monthly and annual accounts; and the estimates of the department will be prepared accordingly.

274. When a personal advance in anticipation of salary is allowed, it will be debited as an advance to the recipient and not to the vote for his salary. Any advance made to an officer is to be notified to the head of his department, who will take care that proper arrangements are made for repayment and that no salary is subsequently paid unless such arrangements have been made and are complied with.

275. In accounting for the purchase or sale of securities on account of the Colonial Government, the cost price or price realized will be entered under Investments or Investments Realized "below the line," that is, following after and distinct from the entries relating to revenue and to expenditure charged against revenue. Any profit on sale as compared with the value at which the securities sold appear in the accounts will be carried to current revenue and any loss charged to expenditure.

At the close of each financial year, each of the securities held on account of the Colonial Government will be valued at the current middle market price in London on the last working day of the year, and the value assigned to each security in the accounts will be adjusted so as to correspond with that price. The amount by which the new value exceeds or falls short of the old value will be carried to the credit or debit of an Investments Adjustment Account, and the balance of that account will be carried to revenue or charged to expenditure.

Where securities are held on behalf of a fund so that they belong to the fund and not to the Colonial Government, a similar procedure shall be followed, but the gain or loss will accrue to the fund and not to the Colonial Government.

When securities are transferred from one fund to another fund in the custody of the Government, they shall be so transferred at the current middle market price in London at the date of transfer.

276. If a Colony receives a grant or loan from Imperial funds to meet certain specific expenditure, the grant or loan when received shall be brought to account below the line, and payments on the service charged to expenditure above the line. At the end of each month, an amount equal to the amount which has been charged as expenditure during the month on the service, or if the grant or loan is only to meet a part of the expenditure, then such part of that expenditure as ranks for assistance from Imperial funds, shall be debited to the below the line account and credited to Revenue.

277. Any necessary expenditure on services of a confidential nature, the purpose and particulars of which cannot be divulged, will be specially reported to the Secretary of State and will be supported in the accounts by the Governor's certificate of payment and declaration that he has satisfied himself that the money has been properly expended.

278. Unless the amount involved does not exceed the limit up to which the Governor has been authorized to sanction on his own authority such writing off, abandonment, or remission, and neither fraud nor negligence on the part of an officer is involved, the authority of the Secretary of State is required.

Digitized by Google

(*a*) for the writing off of any loss of public money or stamps, or
(*b*) subject to the provisions of Regulation 241, for the abandonment or remission of any claim for money due to the Government, or
(*c*) subject to the provisions of Regulation 345, for the writing off of any sum which has appeared as an asset in a previous account.

F. *Loan Expenditure.*

279. The complete authority requisite for expenditure which is to be met by loan consists of an enactment of the Legislature and the sanction of the Secretary of State. This is normally secured by the passing of the Law authorizing the raising of the loan and the expenditure of the money so raised.

280. Where the law authorizing the raising of the loan does not specifically authorize the execution of the particular works contemplated, and the amount to be expended upon each, those amounts require the sanction of the Legislature and the Secretary of State.

281. In cases where sufficient loan funds are not immediately available and the expenditure must therefore be met in whole or in part out of current revenue or surplus balances subject to reimbursement when the contemplated loan has been raised, such expenditure will be charged as an advance pending reimbursement. The amount to be advanced in any year will require the sanction of the Legislature and the Secretary of State.

282. The anticipated loan expenditure during the year will not appear in the body of the Estimates but a full statement of such expenditure, including a schedule showing the salaries of any staff specially engaged, should be appended to the general Estimates of the Colony, and receive the approval of the Legislature and the sanction of the Secretary of State. In the case of expenditure on a public work, the particulars mentioned in Colonial Regulation 220 should also be given.

283. When the statement referred to in the preceding Regulation has been approved by the Legislature and sanctioned by the Secretary of State, the loan expenditure of the year must be held to be definitely limited and arranged. Should any further disbursements during the year be required, the approval of the Legislature and the sanction of the Secretary of State will be necessary.

284. The authorities mentioned in the preceding Regulations 279–283 are addressed solely to the Governor; and before the Treasurer makes any payments in respect of loan expenditure he requires the Governor's authority, which should be conveyed to him by Loan Warrants under the hand of the Governor or of the Colonial Secretary signing "by command".

G. *Remittances and Imprests.*

285. All payments due by a Colonial Government to public departments or other creditors in the United Kingdom, and, unless otherwise authorised, all payments due to other Governments, shall be made through the Crown Agents for the Colonies.

286. The Crown Agents shall be kept continuously in funds by the Treasurer, whose duty it is to watch the account of the Colony with the Crown Agents, to be prepared to meet their current requirements and to notify them in good time if local circumstances make it necessary to arrange for temporary accommodation in aid of the Government's account with them.

287. The maximum cash balance which may be retained by sub-accountants will be calculated upon their average current requirements and fixed by authority of the Governor, and the Treasurer will be responsible for seeing that such balances do not exceed their authorised limits.

288. The cost of remittance of salaries or pensions not drawn through an agent of the Colony will be deducted from the amount remitted.

289. If it is necessary for any officer other than a sub-accountant to have at his disposal, for disbursement on the public service, money for which vouchers cannot be presented direct to the Treasurer or a sub-accountant for payment, he will receive an imprest of such amount as the Governor may sanction.

290. The Governor's sanction will be conveyed by Imprest Warrant, and the Treasurer will be held responsible that no imprest is made without such Warrant, and also for seeing that all imprests are duly accounted for in accordance with the terms of the Warrant covering them. The Governor may give a general Imprest Warrant to the Treasurer authorising him to make imprests, as may be necessary, for any duly authorized service.

291. Imprests are not to be charged in the accounts as final expenditure, the actual payments only, out of such imprests, being so charged. Cash payments made by the Treasurer or his sub-accountants by way of imprest will be entered in the cash book and totalled with the rest of the payments in balancing it. Imprests will not be treated by the Treasurer as "Advances" or "Remittances" but will be accounted for, below the line, under a separate head "Imprests." The imprests and the amounts of the authorised payments accounted for will be posted to a personal imprest account of the officer concerned.

H. *Custody of Public Money.*

292. Wherever possible, the Governor will employ one or more of the banks in the Colony for the custody of public money either on current account or on deposit. He will be responsible for seeing that effect is given to any instructions from the Secretary of State for limiting the amount of public money that may be at any one time in the custody of a bank. He will communicate such instructions to the Treasurer, who will be responsible for their strict observance, and also to the Auditor, whose duty it will be to report at once to the Governor for the information of the Secretary of State, if he should find that the prescribed limit has been exceeded.

Digitized by Google

293. The Governor will take care that a secure fireproof vault or safe is provided for the custody of money not in the charge of a bank. The door of such vault or safe will be furnished with three different locks, the keys of which will be kept in the charge of the Treasurer and such two other principal officers of the Government as the Governor may appoint.

294. The Treasurer will keep in his own immediate charge only such sums of money, not exceeding a certain fixed maximum, as may be necessary to meet current cash disbursements.

295. The strong vault will on no occasion be opened, nor will any money be deposited therein or withdrawn therefrom, except by the three officers entrusted with the keeping of the separate keys, and on every such occasion they will sign a joint record of every sum deposited or withdrawn, which record will be kept in the vault.

296. All cash received by public officers will be deposited as soon as possible in the safe or vault provided for the purpose, or paid into a bank. Negligence in this respect will throw the entire responsibility for any loss upon the officer concerned. No public officer shall keep or allow to be kept in any Government safe under his charge any money except public money or such as by virtue of his office he is bound to receive and account for.

297. Where public money is to be paid into a bank, the Treasurer and the sub-accountants so instructed will make such payments daily. Private money will in no circumstances be included in a public banking account.

298. The Treasurer's bank account must not be overdrawn, nor any temporary advance obtained from the bank, without the special sanction of the Governor.

299. The main stock of stamps, both postage and revenue, will be kept in the safe or vault appointed for that purpose. A stock book will be kept, in which will be entered under each denomination the number and value of stamps received and issued; and this book, on each occasion of either a receipt or issue, will be initialled by the officers appointed to have joint charge of stamps. Stamps will be issued on requisition and a receipt taken from the officer to whom they are issued.

300. Boards of Survey, to be held after the close of business on the last business day of each year, or before the commencement of business on the first day of the new year, will be appointed by the Governor to examine the Treasury cash, bank balances, and stamps, both at headquarters and as far as practicable at the out-stations. Boards will also be appointed from time to time to hold surprise surveys of the cash and stamps in the custody of the Treasurer and his sub-accountants.

301. Officers entrusted with the receipt, custody, or disbursement of public money may be required to give security, in accordance with the local law and regulations, for the faithful discharge of their duty. In every case of default the liability of sureties must be enforced.

302. An officer appointed to act for another officer on leave will be required to give the same security as that required to be given by the officer for whom he acts.

J. *Accounts and Book-keeping.*

303. Every entry in the accounts will be supported by a voucher containing full particulars of the item or items to which it relates.

304. The Treasurer will keep in his office the following principal books of account:—Cash Book, Abstract Book, Journal, and Ledger; together with such subsidiary books as may be necessary.

305. In the Cash Book will be entered all cash transactions as they occur. The entries will be numbered consecutively, on each side of the book, in the order of the receipts or payments, and corresponding numbers will be affixed to the supporting vouchers. The Cash Book will be balanced at the close of each day, and the balance shown compared with the cash in hand. If the balances do not agree, the discrepancy will forthwith be investigated by the Treasurer. If they agree, a certificate will be filled in by the officer in charge of the Cash Book, showing the opening cash and bank balances, the receipts and payments for the day, and the closing balances. This certificate will be countersigned by the Treasurer and sent to the Colonial Secretary as often as may be prescribed by the Governor.

306. Every sub-accountant will keep a cash book, in which he will enter all sums of money received or paid by him as a public officer, for whatever service, whether they form a part of the Colonial revenue or not. He will balance his cash book weekly at least and check the balance with the money in his hands. Officers having large financial responsibility will be required to balance their cash books daily.

307. Every sub-accountant will send his cash book or a certified transcript or summary of it to the Treasurer immediately after the close of each month, accompanied by the necessary supporting vouchers.

308. When the various cash books, or the transcripts or summaries thereof, are received in the Treasury, they will be checked with the supporting vouchers, and any items insufficiently accounted for will be disallowed. Amounts so disallowed will remain with the balance of the account as a charge against the sub-accountant and, if not in due time properly vouched and justified, must be either recovered from such officer as the Governor may hold responsible or provided for by proper authority.

309. The Abstract Book will be posted by an officer or officers other than the officer in charge of the Treasury Cash Book, when the Treasury staff permits of this arrangement. The posting will be done every morning from the vouchers put in on the previous day, checked by comparison with the Cash Book and tested by the Treasurer.

310. The accounts of the various sub-accountants and of the Crown Agents will be abstracted, as soon as they are received, below the record of the transactions of the Treasurer for the period to which they relate.

311. In the Journal will be entered, from day to day, all adjustments authorised to be made between the various ledger accounts; and also, at the close of each month, any such adjustments appearing in the accounts rendered by sub-accountants.

Digitized by Google

312. The Treasurer will keep a subsidiary Journal, in which will be recorded the details of transfers between heads and sub-heads, and of other transactions which cannot be shown in the principal Journal and Ledger.

313. As soon after the end of each month as the sub-accountants' accounts have been abstracted the entries in the Abstract Book will be totalled. The totals of the entries which have been made in the subsidiary Journal for the month will then be posted into the Abstract Book; the expenditure credits, in respect of over debits in the current year, will be deducted from the expenditure, and the revenue debits, in respect of over credits in the current year, from the revenue. The resulting totals will be entered in the Abstract Book and the totals for each ledger account will be posted in the principal Journal.

314. The Ledger will be posted monthly from the principal Journal. It will contain one account for revenue and one for expenditure, an account of surplus and deficit, accounts of loan funds, of advances, deposits, drafts and remittances, and of every fund in the custody of the Government, and such other accounts as the Treasurer shall approve. A trial balance of the Ledger will be made as soon as each month's account has been posted, and a summary of the balance sheet under its principal divisions, but excluding the balances of the accounts of funded debt and sinking funds, will be published in the Official Gazette. This summary will form the Statement of the General Assets and Liabilities of the Colonial Government, and show the excess of assets over liabilities as a balance identical with the balance of the Surplus and Deficit Account.

315. The Surplus and Deficit account will be posted exclusively from the accounts of revenue and expenditure; and will accordingly furnish the accurate record of the balance between them, from month to month and from year to year.

316. Every head of a department will keep a Departmental Vote Account in such form as will clearly show at any time in respect of each vote for his department:—

(*a*) the total amount of expenditure sanctioned for the service of the year,

(*b*) the amount of expenditure charged, and

(*c*) any further known liabilities in respect of the service of the year.

317. The monthly accounts rendered by the Treasurer shall consist of the under-mentioned documents:—

(*a*) An Abstract Account of receipts and payments showing, under the several heads, the totals of the receipts and payments in the month and in the then expired period of the year, together with the balances at the commencement and close of the periods;

(*b*) Schedules of the vouchers, under each head of receipt and payment, setting out the various items, arranged according to sub-heads;

(*c*) Vouchers for all items arranged in the order of the schedules.

In Colonies in which the accounts are audited direct from the Treasury books, it will not be necessary to prepare the documents (*a*) and (*b*).

The Abstract Account shall include only sums which have actually been received or paid within the period of account.

318. All classes of account books and Treasury records will be carefully preserved for such minimum periods as may be prescribed by the Secretary of State. After the expiration of such periods they may be destroyed with the approval of the Governor.

K. *Audit.*

319. The Treasurer will render his accounts for audit monthly, in the prescribed form, as soon as possible after the close of the month to which they relate.

320. Copies of the reports of all Boards of Survey on the various Treasury Chests, together with a certificate signed by the manager of the bank, of the bank balance at the time of the survey, will be forwarded to the Auditor.

321. As soon as possible after the expiration of each financial year, the Treasurer will furnish an Annual Abstract Account showing the whole of the receipts and payments in the year, and the full opening and closing balances.

322. The Annual Abstract Account will be accompanied by detailed statements of revenue and expenditure, showing the amounts actually received or expended during the year as compared with the estimates under each sub-head, together with explanations of the differences.

323. With the Annual Account, there will also be furnished the Statement of the Assets and Liabilities of the Colony at the close of the year, together with the following documents:—

(*a*) A statement of advances outstanding at the end of the year;

(*b*) A statement of deposits outstanding at the end of the year;

(*c*) A statement of investments, showing the amount of stock held on the last day of the year, together with the actual cost and the market value at that date;

(*d*) A statement of the outstanding amount of funded debt or loans, and of any sinking funds.

324. The Auditor is responsible for the audit and inspection of all public accounts of the Government, whether such accounts be of general revenue and expenditure, or accounts of special funds, or departmental accounts.

325. The Auditor is not responsible for the accuracy of the books of account so as to relieve the Treasurer, heads of departments, or other accounting officers of the responsibility therefor, which primarily rests with them. He will nevertheless apply such an examination as will enable him to ascertain that the accounts are kept on a correct system, that they are punctually and properly posted, and that the checks against irregularity and fraud are adequate and effective.

326. He will satisfy himself that the laws of the Colony, the Colonial Regulations, and the instructions of the Governor in all matters of finance and account are strictly observed, and will bring to the notice of the Governor any failure in their observance.

Digitized by Google

327. The Auditor will not undertake any examination of accounts, partaking of the nature of pre-audit, which involves the acceptance by him of a responsibility which would preclude him from full criticism of any accounting transactions after they have been duly recorded in the account books of the Colony.

328. The Auditor will not undertake any duties outside those appertaining to his post which, by reason of the nature or amount of the work involved, might prevent him from performing efficiently his duties as Auditor, without the special authority of the Secretary of State, or, in Colonies where the Auditor is responsible to the Director of Colonial Audit, alternatively, the approval of the Director of Colonial Audit.

329. The examination of the accounts will be carried out either at the local audit offices or at the offices of the various accounting officers, as may be most convenient.

330. The Auditor will examine and check the subsidiary books and the accounts of the authorised imprests and advances, and ascertain whether such imprests and advances are punctually accounted for and repaid. In the event of any imprest having been made to an officer without special authorisation, before a previous imprest has been accounted for, he will report the fact to the Governor. He will at once report any unauthorised advance to any officer or account or any other unauthorised disbursement appearing in the books. In his examination of the deposit accounts he will ascertain that all deposits which have remained unclaimed for five years are, in the absence of special reasons to the contrary, written off to revenue. He will call attention to any apparent neglect in the collection of arrears of revenue.

331. He will in all cases refer to the authorities regulating the expenditure provided for in the Estimates, and will see that the expenditure is in accordance therewith. In the case of expenditure which has not been provided for in the Estimates he will ascertain whether the necessary funds have been voted by the Legislature, and whether the expenditure has been duly sanctioned by the Secretary of State. He will satisfy himself that in every charge against a head the money expended has been applied to the purpose or purposes for which such head was intended to provide, and that it is charged to the proper sub-head.

332. He will satisfy himself that adequate regulations exist for the guidance of store accountants and are duly complied with.

333. He will call upon the accounting officer for explanations of the cause of any undue delay in the rendering of accounts, or in furnishing any statements or returns that he may require, and, if the explanation is not satisfactory, will report the circumstances to the Governor.

334. If the Auditor finds any irregularity in the books, cash, stamps, or stores, for which the head of a department is responsible, he will at once notify the Governor. Should he find the books of any subordinate officer in an unsatisfactory state or discover any irregularity, he will at once notify the head of the department and, if the case be serious, report the circumstances to the Governor.

335. As soon as possible after the close of the financial year the Auditor will prepare a report on the revenue and expenditure of the year, in which he will deal with the collection of the revenue, the state of the arrears, the manner in which the accounts of the Colony are kept, the sufficiency of existing checks against fraud, the nature and extent of the audit applied, and any special questions arising out of the accounts. In Colonies where the Auditor is responsible to the Director of Colonial Audit, he will furnish this report to the Director of Colonial Audit and to the Colonial Secretary. In other Colonies he will address the report to the Colonial Secretary for the information of the Governor. In both cases the report will be laid before the Legislature and a copy will be transmitted by the Governor to the Secretary of State.

The Governor will not alter the report in any way for presentation to the Legislature without the consent of the Auditor or the prior approval of the Secretary of State.

336. The Governor will report forthwith for the decision of the Secretary of State any case in which he has over-ruled the maintained opinion of the Auditor in any matter relating to the public accounts.

L. *Stores.*

337. Local purchases of stores should be confined to articles produced in the Colony or to articles which, owing to special circumstances, can be purchased as advantageously in the Colony as they can be ordered from abroad.

338. Any stores which may be purchased in the Colony should, unless the estimated cost is less than an amount to be laid down by local regulation, be obtained by contract after public tender. If, however, no tenders are made or the Governor has ground for belief that the tenders sent in are collusive or unreasonable, other arrangements may be made. All tenders will be submitted to a Board of not less than three persons appointed by the Governor.

339. All requisitions from a Colony for stores required from the United Kingdom, or from countries not being adjacent to a particular Colony, will be sent direct in duplicate to the Crown Agents by the Colonial Government.

340. The Crown Agents, being the agents of the Colonial Governments, will comply with all requisitions sent to them which bear the signature of, or are forwarded by, the proper officer of the Colonial Government, and they will not refer to the Secretary of State unless they have reason to doubt whether in existing circumstances any particular requisition should be complied with. The officer concerned will therefore be held responsible that no requisitions are sent to the Crown Agents unless the expenditure has been duly authorized.

341. Orders will in no case be given by the Colonial Government directly or through local agents to firms in this country or in countries not adjacent to the Colony, although the names of firms whom the Colonial Government may for any reason wish to employ may be mentioned in the body of the requisition forwarded to the Crown Agents. The Crown Agents will be guided by the wishes of the Colonial Government unless they have reason to consider that this course is not in the interest of the Colony, in which case they will subsequently explain to the Colonial Government the reasons for their action.

342. Purchases of stores required from an adjacent country should be confined to articles produced in that country, and should be procured as far as possible in the manner prescribed by Regulation 338.

343. Every officer having in his charge or custody any stores or other articles which are public property will keep a proper store ledger or inventory to record their disposal.

Digitized by Google

344. Boards of officers, which should not include the storekeeper of the stores to be surveyed, will be appointed by the Governor at the end of each year, and at such other times as may be necessary, to inspect and report upon Government stores; but this will not relieve heads of departments of their responsibility for satisfying themselves by occasional stocktaking that the balances on the ledger are actually in stock.

345. The writing off of losses and deficiencies of stores will require the authority of the Governor; but where such losses or deficiencies are caused by fraud or negligence, and it is desired to relieve the responsible officer of any part of his pecuniary liability, the authority of the Secretary of State will also be required.

346. Articles will only be condemned as unserviceable on the report of a Board of Survey, except in the case of minor articles of a perishable nature, where the Governor may at his discretion dispense with a Board.

347. Unserviceable stores, if sold, will be disposed of by public auction or by tenders after public advertisement, unless the special approval of the Governor is obtained for their being sold otherwise. If such stores are unsuitable for sale they must be destroyed, unless they can be utilised immediately or within a reasonable time for some public service other than that for which they were purchased; but any condemned stores so retained must be suitably marked to prevent their use for the original purpose and should be brought on charge in a subsidiary ledger for obsolete stores.

M. *Government House.*

348. The Government House, together with its stables, garages, outbuildings, fences, and other appurtenances, will be kept in substantial repair throughout at the cost of the Colony. The rooms will be painted and papered (when necessary) and furnished at the public expense. Plate and table ornaments to a moderate and reasonable amount, together with crockery, glass, cutlery, and kitchen utensils, will also be provided at the cost of the Colony.

349. All furniture and effects supplied at the public expense will be kept complete, and any article lost or damaged otherwise than by fair wear and tear during the occupation of the Government House by any officer will be made good at his expense.

350. An accurate inventory of all furniture and effects provided at the public expense will be made and kept by the Director of Public Works, or other officer designated for that purpose, who will at least once in every two years inspect the furniture and effects and prepare a list of all deficiencies, which the officer responsible will thereupon make good at his own expense. "Fair wear and tear" may be held to include breakages or deficiencies of crockery or similar small or fragile articles, but a reasonable limit must be placed upon the amount allowed in this respect, based as far as possible upon the previous practice in the Colony concerned.

351. Whenever a Governor vacates his government, a similar inspection will be made; and if the retiring officer does not cause the deficiencies for which he is responsible to be made good, the inspecting officer will prepare for immediate transmission to the Secretary of State a statement of the expenses to be incurred for that purpose, in order that the Secretary of State may take steps to recover the amount from the officer responsible.

352. The provision made in the Estimates for the purchase of furniture and effects for the Government House will be administered by the Director of Public Works or other officer designated for the purpose, who will from time to time receive from the Governor requests for repairs, replacements, and additions.

353. Expenditure on Government House furniture incurred in the United Kingdom will only be admitted as a charge against Colonial funds when made through the Crown Agents.

N. *Returns.*

354. The Treasurer will furnish to the Colonial Secretary, for transmission by the Governor to the Secretary of State, the following periodical returns:—

(a) Annually.

(i) An abstract account of the total revenue and expenditure of the year under each head of receipt and payment, showing the opening and closing balances in both the Treasurer's and Crown Agents' accounts;
(ii) Detailed statements of revenue and expenditure, arranged according to sub-heads, showing the excess or saving on each sub-head and the net excess or saving on each head, and showing also any supplementary votes for expenditure under any sub-head;
(iii) A full statement of the expenditure on works and other payments chargeable to loan accounts;
(iv) A statement of the assets and liabilities at the close of the year;
(v) A statement of the public debt of the Colony, showing the several amounts of the loans issued and of their respective sinking funds;
(vi) A statement of the investments of the Colonial Government at the close of the year;
(vii) A statement of the receipts, issues, balances in hand, and the assets and liabilities of the Savings Bank, showing separately the revenue derived from Savings Bank investments, the interest credited to depositors, and the expenses of the management of the institution;

(b) Quarterly.

(viii) A statement of the revenue and expenditure under heads to the close of the previous quarter, as compared with
1. The total estimate for the year, and
2. The figures for the corresponding period of the previous year.

355. The Colonial Secretary will furnish, for transmission to the Secretary of State, quarterly returns of all persons newly appointed to public offices of Classes II and III (Part I, Regulation 23) and changes in the holders of existing offices in these classes, arising from promotions or otherwise, during the previous quarter; of all alterations made in the salaries and allowances of public offices of any class; and of all new offices.

APPENDICES.

APPENDIX 1.

Regulation 29.

Particulars of the Office of now vacant in the Colony of

1. Duties of Office, and qualifications required for their performance.
2. Emoluments of Office :—
   (*a*) Pensionable.
   (*b*) Non-pensionable.
3. Allowances, quarters, and other circumstances affecting the value of the Office, including grant of free or assisted passages to the officer and his family on first appointment and on leave.
4. Nature, number, and amount of securities required, and mode of giving them.
5. Acts, laws, or ordinances, making provision respecting any of the above matters with reference to the sections in which such provision is made.
6. Whether house accommodation is available or readily procurable, whether furniture, etc., should be brought from England, and any other particulars of a like nature likely to be useful for the information of candidates.
7. Whether free medical attendance and medicines are provided.
8. Whether and, if so, what rates and taxes are payable.

APPENDIX 2.

Regulation 33.

Colonial Service.

Annual Confidential Report.

(General.)

.....*(Insert name of Colony).*

I. To be filled in by the officer.

1. Full name.
2. Whether married or single. Number of children.
3. Present post and date of appointment to it.
4. Present salary (if on scale particulars should be given with date of next increment), and other circumstances affecting value of appointment.
5. Professional or other qualifications; contributions to science, literature, research, etc., during the year.
6. Any special duties performed, or courses of instruction taken during the year.
7. Should an opportunity arise, would the officer wish to be considered for promotion or transfer outside the Colony in which he is at present serving? If so, he should state the nature of the work preferred, minimum salary, and any Colonies to which he would not desire to go.

APPENDIX 3.

Regulation 119.

A.

Regulations respecting Foreign Orders and Medals applicable to Persons in the Service of the Crown.

Orders.

1. No person in the Service of the Crown shall accept or wear the Insignia of any Foreign Order without having previously obtained His Majesty's permission to do so, signified either :—

(*a*) By Warrant under the Royal Sign-Manual, or

(*b*) By restricted permission conveyed through the Keeper of His Majesty's Privy Purse.

2. When permission is given by Warrant under the Royal Sign-Manual, the Insignia of the Foreign Order may be worn at all times and without any restriction.

When restricted permission is given the Insignia may only be worn on the occasions specified in the terms of the letter from the Keeper of His Majesty's Privy Purse conveying the Royal sanction.

3. Full and unrestricted permission by Warrant under the Royal Sign-Manual is contemplated in the following cases :—

For a Decoration conferred—

(*a*) For distinguished services in the saving of life ;

(*b*) On an Officer in His Majesty's Naval, Military or Air Forces lent to a Foreign Government ; on an Officer in His Majesty's Naval, Military or Air Forces attached by His Majesty's Government to a Foreign Navy, Army or Air Force during hostilities ; or on any British Official lent to a Foreign Government and not in receipt of any emoluments from British public funds during the period of such loan.

4. Restricted permission is particularly contemplated for Decorations which have been conferred in recognition of personal attention to a Foreign Sovereign, the Head of a Foreign State, or a member of a Foreign Royal Family, on the occasion of State or official visits by such personages.

5. Restricted permission will also be given for Decorations conferred in the following cases :—

(1) On British Ambassadors or Ministers abroad when the King pays a State visit to the country to which they are accredited ;

(*Note.*—A State visit is defined as one on which the King is accompanied by a Minister or High Official in attendance.)

(2) On Members of Deputations of British Regiments to Foreign Heads of States ;

(3) On Members of Special Missions when the King is represented at a Foreign Coronation, Wedding, Funeral, or similar occasion ; or on any Diplomatic Representative when specially accredited to represent His Majesty on such occasions (but not on the members of his Staff).

Restricted permission will *not* be given to—

(*a*) British Ambassadors or Ministers abroad when leaving ;

(*b*) British Officers attending Foreign Manœuvres ;

(*c*) Naval Officers of British Squadrons visiting Foreign Waters.

6. Both in the case of full and of restricted permission the matter will be submitted to the King by His Majesty's Principal Secretary of State for Foreign Affairs, who shall be under no obligation to consider applications for permission unless the desire of the Head of a Foreign State to confer upon a British subject the Insignia of an Order is notified to him before the Order is conferred, either through the British Diplomatic Representative accredited to the Head of the Foreign State, or through the Diplomatic Representative of the latter at the Court of St. James.

In no case can applications be considered in respect of decorations conferred more than five years previously, or offered in connection with services or events so long prior to the nomination.

7. When His Majesty's Principal Secretary of State for Foreign Affairs shall have taken the King's pleasure on any such application, and shall have obtained His Majesty's permission for the person in whose favour it has been made to wear the Insignia of a Foreign Order, he shall signify the same to His Majesty's Principal Secretary of State for the Home Department, in order that he may cause a Warrant, if it be a case for the issue of a Warrant as defined in Rule 2, to be prepared for the Royal Sign-Manual.

When such Warrant shall have been signed by the King, a notification thereof shall be inserted in the "Gazette."

Persons in whose favour such Warrants are issued will be required to pay to His Majesty's Principal Secretary of State for the Home Department a stamp duty of 10s.

8. The Warrant signifying His Majesty's permission may, at the request and at the expense of the person who has obtained it, be registered in the College of Arms. Every such Warrant as aforesaid shall contain a clause providing that His Majesty's licence and permission does not authorise the assumption of any style, appellation, rank, precedence, or privilege appertaining to a Knight Bachelor of His Majesty's Realms.

Medals.

9. Medals, with the exceptions specified below and State Decorations not carrying membership of an Order of Chivalry, are subject to the Regulations in the same manner as Orders but permission is given by Letter and not by Royal Warrant.

10. Medals for saving or attempting to save life at sea or on land, whether conferred on behalf of the Head or Government of a Foreign State or by private Life Saving Societies or Institutions may be accepted and worn without restriction.

Digitized by Google

Subject, however, in the case of members of His Majesty's Naval, Military or Air Forces, to any restrictions imposed by the King's Regulations for those Services as to the wearing of such medals with uniform.

Applications for His Majesty's permission to wear other Medals conferred by Private Societies or Institutions, and Commemorative Medals cannot be entertained.

11. The King's unrestricted permission to accept and wear a Foreign War Medal will only be given to (1) Members of His Majesty's Naval, Military, or Air Forces if serving with a Foreign Army, Navy, or Air Force with His Majesty's licence, and (2) Military, Naval, or Air Attachés or Officers and other ranks and ratings officially attached to Foreign Armies, Navies, or Air Forces during hostilities.

General.

12. Ladies are subject to the Regulations in all respects in the same manner as men.

Foreign Office, March, 1930.

B.

Regulations respecting Foreign Orders and Medals applicable to Persons NOT in the Service of the Crown.

Orders.

1. No subject of His Majesty shall accept or wear the Insignia of any Foreign Order without having previously obtained His Majesty's permission to do so, signified either:—

(*a*) By Warrant under the Royal Sign-Manual, or

(*b*) By restricted permission conveyed through the Keeper of His Majesty's Privy Purse.

2. When permission is given by Warrant under the Royal Sign-Manual, the Insignia of the Foreign Order may be worn at all times and without any restriction.

When restricted permission is given the Insignia may only be worn on the occasions specified in the terms of the letter from the Keeper of His Majesty's Privy Purse conveying the Royal sanction.

3. Full and unrestricted permission by Warrant under the Royal Sign-Manual will only be given in the case of Decorations earned by services in the salaried employment of the Foreign Government concerned, by honorary consular services of not less than three years' duration, or by distinguished services in the saving of life.

Such services must have been rendered at least in part, within the period of five years immediately preceding the notification prescribed by Rule 5 below.

4. Restricted permission will ordinarily be given in all other cases, except where considerations of general policy or public interest must be held to preclude permission; provided however, that such permission shall not be given in the case of Decorations conferred or offered more than five years before the date of application for permission, and, further, that the bestowal of the Decoration has been made the subject of an official communication through one of the channels prescribed in Rule 5.

5. Both in the case of full and of restricted permission the matter will be submitted to the King by His Majesty's Principal Secretary of State for Foreign Affairs, who shall be under no obligation to consider applications for permission unless the desire of the Head of a Foreign State to confer upon a British subject the Insignia of an Order is notified to him before the Order is conferred, either through the British Diplomatic Representative accredited to the Head of the Foreign State, or through the Diplomatic Representative of the latter at the Court of St. James.

6. When His Majesty's Principal Secretary of State for Foreign Affairs shall have taken the King's pleasure on any such application, and shall have obtained His Majesty's permission for the person in whose favour it has been made to wear the Insignia of a Foreign Order, he shall signify the same to His Majesty's Principal Secretary of State for the Home Department, in order that he may cause a Warrant, if it be a case for the issue of a Warrant as defined in Rule 2, to be prepared for the Royal Sign-Manual.

When such Warrant shall have been signed by the King, a notification thereof shall be inserted in the "Gazette."

Persons in whose favour such Warrants are issued will be required to pay to His Majesty's Principal Secretary of State for the Home Department a stamp Duty of 10s.

7. The Warrant signifying His Majesty's permission may, at the request and at the expense of the person who has obtained it, be registered in the College of Arms. Every such Warrant as aforesaid shall contain a clause providing that His Majesty's licence and permission does not authorise the assumption of any style, appellation, rank, precedence, or privilege appertaining to a Knight Bachelor of His Majesty's Realms.

Medals.

8. Medals, with the exceptions specified below, and State Decorations not carrying membership of an Order of Chivalry, are subject to the Regulations in the same manner as Orders, but permission to wear is given by Letter and not by Royal Warrant. No permission is needed to accept a Foreign Medal if it is not to be worn.

9. Medals for saving or attempting to save life at sea or on land, whether conferred on behalf of the Head or Government of a Foreign State, or by private Life Saving Societies or Institutions, may be accepted and worn without restriction.

Applications for His Majesty's permission to wear other Medals conferred by Private Societies or Institutions, and Commemorative Medals, cannot be entertained.

10. His Majesty will not grant permission to wear any Foreign War Medal if the person on whom it is to be or has been conferred was during the war acting in contravention of the Foreign Enlistment Act.

General.

11. Ladies are subject to the Regulations in all respects in the same manner as men.

Foreign Office, March, 1930.

Remarks.

* All bearings are true and when given in degrees are reckoned clockwise from 000° (North) to 359°; those relating to lights are from seaward (*i.e.*, from the ship).

N.B.—In addition to the above Form, information respecting the purpose for which the light is exhibited, the dangers against which it is intended to warn, the position of the lighthouse in respect to some known point, or if possible a tracing from an Admiralty Chart of a small portion of the adjacent coast, with the position of the lighthouse (giving the number of the chart), the position, colour, and description of the Keeper's dwelling, and any information that may be of use to the navigator, will be of much service.

The Form should be sent to the Hydrographic Department of the Admiralty.

INSURE WITH

BRANCHES, OR AGENCIES, IN ALL PARTS OF THE EMPIRE

CHIEF ADMINISTRATION: 7, CHANCERY LANE, LONDON

Miss SMALLWOOD'S
Society for the Assistance of
Ladies in Reduced Circumstances

UNDER
ROYAL PATRONAGE

The Society appeals to all members of the **Legal Profession** to remember this **important** work when occasion arises.

AN URGENT APPEAL

LEGACIES

"Their works do follow them."

FOR OVER FIFTY YEARS we have waged War against poverty and distress, and helped many poor ladies of gentle birth, some trying to exist on very little, who, alas, have neither strength nor skill to earn their own living; also relieved the **anxious hearts of many poor sufferers** and kept some from starvation and the workhouse, and looked after the old and sick, and tried to be a **real friend to all.** We may mention that a **Legacy** would be most useful, or a **Donation** to our **General, Special, Coal or Shilling Fund.** We feel sure **there are many people who only need to be reminded of the wants of others to give generously.**

Donations and New Annual Subscriptions will be thankfully received

Please make cheques payable to—

Miss Smallwood's Society, Lancaster House, Malvern.

Reports on Application.
